March 6, 2015

March 2, 2015

Ms. Sharon Bronson
Chair
Pima County Board of Supervisors
130 West Congress St, 11th Floor
Tucson, AZ 85701

Dear Sharon,

On behalf of the TREO Board of Directors, representing the region's major employers, higher education, elected officials and nonprofit leadership with 85,000 employees, we strongly encourage the Pima County Board of Supervisors to vote in favor of calling a Bond Election for November 2015.

It has been nearly 11 years since the successful Bond Election of 2004, and it is time to invest in our community again. There are critical capital improvements necessary to preserve our quality of life, advance our region's economy, build competitive assets, encourage innovation and connect our region to the global economy. If we cannot invest in ourselves and the optimism we share for the future, then how can we expect others to invest in us with new business relocations, jobs and capital investment?

TREO members are encouraged that Economic Development comprises a significant percentage of the proposed bond projects under consideration, and we commend you for prioritizing jobs and economic opportunities for all our residents. If we want to significantly advance the Pima County Economic Development Plan, invest in our citizens' skills development, and support the TREO Blueprint Infrastructure priorities, the time is right to let the voters decide.

In addition this bond election is more than a local issue, it is a national and global competitiveness issue. Many of our state competitors, such as California, Nevada and Utah, among others, are now investing again in their own economies.

We thank the Pima County Board of Supervisors for their ongoing support of the region's economic development strategies and look forward to collectively advancing the region together.

Regards,

Guy Gunther
TREO Chairman of the Board

ARIZONA BUILDERS ALLIANCE

February 17, 2015

Larry Hecker, Chairman
Pima Bond Advisory Committee
130 W Congress, 11th Floor
Tucson, AZ 85701

Dear Mr. Hecker,

The Arizona Builders Alliance believes that many of the projects advanced by the Pima Bond Advisory Committee would be beneficial for future economic growth and sound investments in our region's future. We believe that the most beneficial aspects of the plan are the projects that support diverse economic development throughout Pima county's jurisdictions.

Though the immediate benefits of this plan are obvious and appealing with an estimated $400 million invested in commercial construction; we are also attentive to the long term goals of this plan.

Many of these diverse economic development projects ultimate objective is to provide the human capital, research and discovery activities that foster innovation and entrepreneurship. They serve as catalysts for existing private businesses and an attractor for private investments and relocations. The Arizona Builders Alliance supports this plan because of the impact it will have on Arizona's economic future. We respectfully ask that members of the Pima County Bond Advisory Committee and the Board of Supervisors support these efforts as well and call for the election this fall 2015.

The pace of construction activity is slow today and so the cost to build is attractive. Debt financing costs are less when interest rates are low as they are now. With both construction costs and bond interest costs at historical lows, now would be an extremely beneficial time to leverage the taxpayers buying power to do more with less.

The additional economic activity will surely impact tax revenue and these construction projects will benefit not only the local jurisdictions, but the entire region as well.

One million dollars of spending on a project generates 13 direct construction jobs and another 13 indirect jobs in the supply and service sectors. $400 million of construction will create or preserve more than 10,000 jobs over the life of the construction period of the bond. All of those folks buy groceries, cars, furniture and all the other items that fuel an economy. It's estimated that a dollar spent in construction gets spent another four to six times in the economy. Every time that money is spent it also generates additional tax revenues in Arizona!

These projects are needed for the future growth throughout Pima County and Southern Arizona.

Best Regards,

Brad Lloyd
Chairman for Southern Arizona,
Arizona Builders Alliance

AN ALLIANCE OF THE ABC & AGC BUILDING CHAPTERS

February 20, 2015

Mr. Larry Hecker
Chair, Pima County Bond Advisory Committee
130 W. Congress, 11th Floor
Tucson, AZ 85701

Dear Mr. Hecker,

We are a construction and design market sector economic development partnership representing ten local firms in Southern Arizona who collectively have over 400 years of serving the region. As business leaders in this community, we would like to offer our thanks to you and the rest of the Pima County Bond Advisory Committee for your diligence and hard work in listening, assessing the needs and providing recommendations for investing in Pima County.

Southern Arizona needs the $640M bond package as an investment in growth in our community, and we support your forwarding it to the Pima County Board of Supervisors. The projects represent an investment in our economic future, a future we desperately need. We are falling behind in having competitive infrastructure to support not only economic development, but also the quality of life that attracts people and companies to come to Pima County. Community growth is not always far and wide, but richer and deeper. We support actions like this bond package that demonstrate capital investment in our future – a demonstration that is designed to attract outside capital into our region and expand our economic vitality. If we can't show that we are willing to invest in ourselves, how can we expect others to invest?

We encourage the Bond Advisory Committee to forward this package to the Board of Supervisors and pledge our support of the Board's call for a bond election on these questions in fall 2015. A delay of additional years in making this investment would be clearly counterproductive to the economic health and future of our region.

Sincerely,

(Signatures on next page)

Compass Affordable **Housing, Inc.**

Lawrence M. Hecker, Chair, and
Members of the Pima County Bond Advisory Committee
110 W. Congress Avenue
Tucson AZ 85701

February 25, 2015

Dear Mr. Hecker,

I think that the Pima County Bond Funds help Pima County tailor a strategy for the short-term and long-term. This is a good thing. Yet, current federal funding cutbacks and Arizona's budget cuts only add to our County's challenges. So, what really makes an impact on long-term healthy communities and address current needs during these difficult economic times? I would have to say that it really is **quality, affordable housing.**

Increasing the predictability and stability of the housing market helps keep neighborhoods vital and promotes diversity. Everyone benefits when workers such as teachers, healthcare workers, military personnel, waiters, clerks, veterans and public safety professionals can live within the communities they serve. Without reasonable housing choices, the entire community suffers.

When rents are guaranteed to remain stable, as required in affordable housing, households move less often thereby providing more stability within the neighborhood. In most cases people who need affordable housing are already members of the community no matter what their race or background. They are senior citizens living on fixed incomes and working families, including those in entry-level and low-wage jobs. These include preschool teachers, travel agents, food service workers, clergy, and medical assistants.

Failure to build quality affordable housing leads to slum conditions, overcrowding, absentee ownership, and deteriorating properties with no alternatives for low-income families but to live in unsafe and unhealthy housing. This type of environment grinds communities down. We have this issue in Pima County and I'd like to see it disappear.

Building affordable housing brings federal funds that assist in costs to build the housing. So, for every bond dollar spent additional dollars are brought into Pima County from other sources. Building affordable housing creates new jobs and

2835 N. Stone Ave. · Tucson, AZ · 85705 · 520-305-4724 www.compassaffordablehousing.org

allows others to keep their jobs and operating affordable housing creates new jobs. Affordable housing operations adds to the tax base and contributes to the operation of public services by paying taxes, utilities, hook-ups, permits, etc. Also, due to the availability of affordable housing, public schools benefit from enrollment.

Affordable housing located near jobs or public transit reduces traffic congestion and improves air quality by reducing the commute times of workers who must otherwise commute long distances. This is good for all businesses including those that depend on lower-wage employees and/or are labor intensive. Nationwide, the effective tax rate (property tax paid relative to the market value) for multi-family complexes is significantly higher than single-family homes. Thus, multi-family developments pay their "fair share" in local property taxes.

Although affordable housing cannot solve all of our communities' fiscal problems, it is one part of the solution because it reduces the stress on other government-provided services. And, affordable housing developments bring large federal, state, private subsidies to local communities. These subsidies in turn support existing local jobs and create new ones, particularly in the construction and services industries. In addition, affordable housing, including housing with support services, is the most cost-effective way of helping the most vulnerable members of our community, such as the seniors and the disabled, reach their potential. Without this kind of assistance, higher levels of public services are required.

I am asking you to support the recommendation of $30 million in bond funds for affordable housing and do not reduce it.

If I can be of any help answering questions or providing more information to you and the Committee, please do not hesitate to contact me.

Thank you for your consideration,

Maryann Beerling, Chief Executive Officer

RE: BOND PACKAGE for PIMA COUNTY BOARD of SUPERVISORS

Dear Mr. Hecker,

We have in the past five years experienced dramatic improvements in the urban quality of downtown Tucson thanks to the stimulus, investment opportunities, and quality of life improvements brought by the modern streetcar. From housing to restaurants, from street life to increased visitors, the downtown is both remaking itself and making Tucsonans aware of the difference that strategic investments can make in urban quality.

It is critical for our whole region, as well as the downtown, that we lose neither the innovation nor the momentum that is underway. The promised rebuilding of the UAMC campus (as a result of the completed merger between Banner Health and the UA Health Network) will be one such critical project—and one that will build upon the streetcar line. But as a community, we need more than a few isolated projects to rejuvenate the community and make our whole region flourish.

Southern Arizona needs the proposed $640M bond package that will seed important civically-oriented projects throughout our community. These projects will build on the momentum of the recent past, both economically and by upgrading the quality of the environment. This improved quality will, in turn, bring *more* investment. We support the bond package because it will, not only improve our community in the short term, but attract outside capital, expand our economic vitality, and continue the positive transformation of Pima County.

To put this in context: Tucson is to Arizona, today, as Austin was to Texas in the 1970s. The time is now. The place is here. The bond package is critical.

We, the Board of the AIA-Southern Arizona, encourage the Bond Advisory Committee to forward the bond package to the Board of Supervisors for passage, with our support.

Sincerely,

Robert Miller, Architect

PIMA COUNTY Community LAND TRUST

February 25, 2015

Lawrence M. Hecker, Chair
Pima County Bond Advisory Committee
110 W. Congress Avenue
Tucson AZ 85701

Dear Mr. Hecker,

On behalf of the Board of Directors of the Pima County Community Land Trust I write to urge you and other Pima County Bond Advisory Committee members to reevaluate the recommendation for the proposed amount for affordable housing in the upcoming bond election.

The recommended amount was previously $30 million and has recently been downgraded to $20 million. While we recognize the overall needs in Pima County, housing is vital to the stability of our neighborhoods and the community.

Pima County Community Land Trust, along with other non-profit organizations and municipalities, has worked diligently through the most recent financial crisis to acquire and rehabilitate foreclosed homes. This effort was accomplished with federal Neighborhood Stabilization Program funds, HOME funds, and Arizona Housing Trust Funds. Our organization alone has made 83 homes permanently affordable in this community, but those sources of funding have been all but eliminated.

I urge you, on behalf of our homeowners, our organization, and the greater affordable housing community in Pima County to restore recommended funding to $30 million.

Sincerely,

Andrea Ibáñez
President

Subject: Canoa Preserve Park

Dear Bond Advisory Committee,

I am Mrs. Chuck Catino (Mary Lu). I am writing to give my support to the inclusion of the current level of the Bond funding of the Canoa Preserve Park, including the Chuck Catino Softball Complex at $3,250,000. I am sure Chuck would be supporting this. Loudly! In your face! With a big smile!

I'm not Chuck -- but I believe in what he had done SO FAR, and that it should be continued as he would want it to be. Definitely it needs two more softball fields. it needs the trails finished throughout the whole park. It needs more benches and tables, more ramadas with a grill, and more water fountains. It needs multi-use sporting fields on the upper level for school-aged children, easily accessed exercise stations for the elderly and all the other ideas that Chuck had mapped out! I wish I were rich!

BAJA Sporting Club has been doing wonderful volunteer maintenance of the fields, and provided much equipment. Local communities have provided funding for construction. Passage of the next Bond Issue is a major factor in continuing to make this dream come true.

Thank you so much for your help.
Mary Lu Catino

Let Pima County know why you support a 2015 bond election:

I am a proud member of both the YMCA downtown branch board and the YMCA Foundation board. I believe in the Y's mission and believe it does an outstanding job helping Tucson's youth and families. I have donated to the Y since 1973 and wish I could do more. We have a wonderful relationship with Pima County that benefits all of us. I would like to see that relationship continue and expand.

Our County has had to suspend growth and maintenance of too many of it's operations since the economic slump started in 2008. This Bond Issue is a common sense way to move forward and improve our County for the future. Thank You

Children need a place to go to learn new activities, meet new friends and keep active. Exercise should be a daily part of their lives. Providing a safe and healthy place to go to learn and be part of a social community of their peers. It keeps them focused on a lifestyle that will follow them all their lives. Proper exercise, diet, friends and a safe place to play.

Let Pima County know why you support a 2015 bond election:

Living out in Rita Ranch really limits my children's access to swimming facilities, exercise equipment and activities. The Regional YMCA would really enhance the physical fitness of our whole family. Finding out that there is also a library that would be added is another bonus as the closest library is 15 minutes away. They love the library, but sometimes the drive is not an option for our schedule.

I would vote for any bond that would fund these much needed facilities to come to our area.

Thank you

It's simple - Rita Ranch has the one of the highest tax bases in Tucson with one of the lowest amounts of amenities based on that tax base. Our closest [fill in the blank] is over 8 miles away. [Fill in the blank] includes library, police station, community center, YMCA, to name few. Even our community pool has no heat in the winter. I don't know too many other regions in Tucson that have to "drive into town" to check out a library book.

Let Pima County know why you support a 2015 bond election:

I am very much in support of the two YMCA projects for the underserved SE region of Pima County. As an IBM employee, having a Regional YMCA at the Tech Park would be a huge asset to the wellness of the many Tech Park employees and would be highly utilized. Thank you for your consideration.

Pima County Bond Advisory Committee
130 W. Congress St.
Tucson, AZ 85701

RE: PR96 "Model Airplane Parks"
Your Letter dated February 5, 2015 "Bond Advisory Committee Chairs and County Administrator Joint Recommendations" with Accompanying Map

Dear Mr. Hecker:

We are writing on behalf of PR96 "Model Airplane Parks" and in particular we wish to propose an alternative and more equitable distribution of monies allocated to the three flying sites listed in the above referenced materials. In your letter of February 5, 2015, you, Vice Chair Carolyn Campbell and County Administrator, Chuck Huckleberry, met and faced the challenge of reducing the overall bond package to meet the fiscal reality of a $650M cap. In doing so you recommended that the overall funding of PR96 approved by the BAC of $1.5M be reduced by 33% to $1.0M. We understand this was a necessary step in the bond process and do not necessarily object to this overall reduction.

However, your recommendation went one step further in that the $1.0M proposed funding would be equally split three ways between The Model Airplane Park in Avra Valley, The Model Airplane Park South East Regional Park and the Model Airplane Park Ted Walker Field. What you may not be aware of is the Airplane Park in Avra Valley hosts <u>one</u> flying club, the Tucson International Modelplex Park Association (TIMPA) and the Model Airplane Park Ted Walker Field also hosts only <u>one</u> flying club, the Catalina Radio Control Club. However, the Model Airplane Park South East Regional Park was a proposal submitted by <u>two</u> RC Clubs; Southern Arizona Modelers (SAMs) and Tucson Radio Control Club (TRCC).

SAMs and TRCC are the two oldest RC flying clubs in Pima County. SAMs has been operating for over 40 continuous years, and TRCC has been operating for over 50 years. They are both in danger of losing our current flying fields. SAMs is located on Pima County Fairground property and the Southwest Fair Commission has long term plans to reclaim the land where SAMs is located. TRCC is located at Houghton Road and Valencia Road and are on state trust land. They are currently on a month-to-month lease. Furthermore, with the Houghton Road improvements, housing area encroachments and plans to further develop the area, TRCC could lose their field at any time.

The concept for the South East Regional Park has been in existence since 2006 when SAMs and TRCC first submitted it to Pima County Parks and Recreation. It became the genesis for PR96. The current proposal submitted to Parks & Rec in July 2014, will serve the long term needs of two of Tucson's long-standing and largest RC flying clubs. By combining the two clubs at one facility, Pima County can save valuable land, save money and produce a first class resource that can attract national events.

Further, your recommendation of a three way split failed to allocate any monies to an RC club named Green Valley RC Flyers. Following your April 2014 BAC meeting, the RC club at Sahuarita/Green Valley was added as part of PR96. In June of 2014 the five local area clubs were asked by Pima County Parks and Rec to submit proposals outlining the scope of their projects and how the money would be spent. Green Valley RC Flyers did submit a proposal for a new flying field and have been a part of PR96 ever since. They are guests on land owned by Farmers Investment Company (FICO) who recently submitted plans to convert their agricultural land to housing development.

Therefore, we propose the following as a more fair and equitable distribution of the $1.0M. At first blush it seems to make sense that you split the money five ways with each club receiving $200,000.00 each. However, TIMPA's proposal only asked for $132,657.25. Therefore, we feel they should only receive what they ask, with the remaining $867,342.75 being split among the four remaining clubs.

We also propose that the map "2015 BAC Chairs and County Admin. Joint Recommendations" be *modified to show the locations of all* **5** *clubs and their modified share of the funding.*

Thank you for your consideration.

Very sincerely,

Russ Werner

RE: Pima County Bond Advisory Committee

Pima Trails Association supports N34 El Paso Southwestern Greenway. This project provides connectivity to downtown neighborhoods and The Loop and presents an opportunity to develop an urban greenway in an area that has a lack of green space. This historic rail corridor can be an outstanding example of a rails to trails project.

Sincerely,

Sue Clark, President

I encourage you to build a stronger So Arizona community through YMCA's programs and outreach. I have been a member of the Ott YMCA since the 1976 when my kids were on the swim team, as I was later in the adult swim program and in many other programs for women and now for seniors, which I am now. So much richness is available through the YMCA--it's community building at its best. I get to know my neighbors and join with them in conversations and projects. Our participation at the Y is really our primary form of social life now that we are in our 70's.

I support the 2015 Bond election as the Vail and Rita Ranch community would benefit greatly from having a YMCA and a library locally. We have a social responsibility to cultivate values that lead to better health and educational achievements. A YMCA and a library would be a leader in meeting the health, educational and social needs so desperately needed for Vail and Rita Ranch residents.

All kids deserve the opportunity to discover who they are and what they can achieve. That's why, through the Y, millions of youth today are cultivating the values, skills and relationships that lead to positive behaviors, better health and educational achievements.

HEALTHY LIVING

In communities across the nation, the Y is the leading voice on health and well-being. With a mission centered on balance, the Y brings families closer together, encourages good health and fosters connections through fitness, sports, fun and shared interests. As a result, millions of youth, adults and families are receiving the support, guidance and resources needed to achieve greater health and well-being for their spirit, mind and body.

Dear Committee Members,

I am a Pima County resident and I am a pedestrian. I want a walkable region because
streets are where people interact and the practices of citizenship occur. Street life makes cities more livable + human.

I am writing to you in support of fully funding the Pedestrian Safety & Comfort Bond Proposal put forth by Living Streets Alliance and I look forward to voting "YES" for it in 2015.

Thank you for your consideration and for your service to the community as a member of the Bond Advisory Committee.

Sincerely,

Megan Sheehan (name)

1940 E 2nd St #2 (address)

Tucson, AZ 85719

Pima County
Bond Advisory Committee

Tucson, AZ 85701

Dear Committee Members,

I am a Pima County resident and I am a pedestrian. I want a walkable region because
I work downtown and live close by but it's not easy to walk to work without running up against obstacles blocking the sidewalks like overgrown trees, not looking out for pedestrians at intersections like 6th and Broadway.

I am writing to you in support of fully funding the Pedestrian Safety & Comfort Bond Proposal put forth by Living Streets Alliance and I look forward to voting "YES" for it in 2015.

Thank you for your consideration and for your service to the community as a member of the Bond Advisory Committee.

Sincerely,

Jake Alpert (name)

130 W Congress Street
Tucson, AZ 85701

Dear Committee Members,

I am a Pima County resident and I am a pedestrian. I want a walkable region because
I walk through downtown to work every day and witness innumerable near collisions between pedestrians and cars.

I am writing to you in support of fully funding the Pedestrian Safety & Comfort Bond Proposal put forth by Living Streets Alliance and I look forward to voting "YES" for it in 2015.

Thank you for your consideration and for your service to the community as a member of the Bond Advisory Committee.
