Pima County Bond Program Update

Annual Report for Fiscal Year 2016/2017

Period Ending June 30, 2017

About Pima County's Bond Programs

Since 1997, Pima County and its partner jurisdictions have completed over 700 bond projects with voter-approved bond funding, resulting in significant investments in this community's infrastructure, providing tremendous benefit to the everyday lives of our residents and visitors, and creating thousands of construction-related jobs. The projects are located throughout Pima County, including within cities, towns and tribal areas. They include new and improved libraries; community centers; parks and trails; health and medical facilities; affordable housing; justice and law enforcement facilities; historic preservation; roads; wastewater facilities; flood control improvements; and much more. Funding for the projects was approved by voters at county-wide elections held in 1997, 2004, and 2006. In 2014, voters approved funding for a new Pima Animal Care Center.

A 2013 audit of the County's general obligation bond programs by the State Auditor General's office found the County's bond programs to be a unique collaborative effort between the County and its cities, towns and tribes; verified that bond proceeds were used for the purposes authorized by voters; and stated that projects benefited citizens throughout Pima County.

About this Report

Per Pima County's Truth in Bonding Code (Chapter 3.06), status updates on the progress of completing bond projects are provided twice a year to the Bond Advisory Committee, the Board of Supervisors and the public. Since the majority of projects are now complete, Pima County has less to report. As a result, the format of this report has been updated to summarize, in a more concise manner, the accomplishments of each bond program and the status of the remaining projects. Additional information about completed projects, active projects and financial data is available on the County's bond website at www.pima.gov/bonds. This annual report is for the period ending June 30, 2017.

Pima County's project delivery process for completing these projects has become a model adopted by other governmental agencies in Pima County, Phoenix and Texas.

Status of Bond Programs June 30, 2017

Completed Bond Programs

- 1997 Sewer Revenue
- 2004 Sewer Revenue
- 2006 General Obligation (Behavioral Health Facilities)

Substantially Completed Bond Programs

- 1997 General Obligation
- 2004 General Obligation

Active Bond Programs

- 1997 HURF (Transportation)
- 2014 General Obligation (Pima Animal Care Center)

Financial Summary

Since 1997, voters have authorized \$1.52 billion in bonds. As of June 30, 2017, Pima County had sold all but 5 percent of the bonds over 26 individual sales. The remaining General Obligation bond authorization was sold on February 1, 2017. A portion of the County's share of Highway User Revenue Funds are used to repay the transportation bond debt, sewer fees are used to repay the sewer debt, and secondary property taxes are used to pay off the General Obligation bonds that fund the remainder of projects. Pima County bonds are sold with no more than a 15-year payback term. Pima County's conservative approach to debt management is reflected in its superior credit ratings and low interest rates.

Esperanza en Escalante Veteran Housing, Completed June 2017.

A national bond rating company raised Pima County's General Obligation Bond rating to AAA, its highest possible rating.

1997 HURF Revenue Bond Program - Active

In November 1997, Pima County voters approved \$350 million in Highway User Revenue Fund (HURF) bonds, to be repaid with a portion of the County's share of HURF revenues from the State, to widen and rebuild roadways throughout Pima County and within cities and towns.

This funding has:

- Leveraged more than \$340 million in federal, state and local transportation funding
- Built more than 50 segments of roadway totaling over 250 lane miles
- Completed more than 90 safety projects
- Greatly relieved congestion that resulted from decades of rapid growth across eastern Pima County

The program includes 56 site-specific projects, many of which have been constructed in phases. Two additional projects, Neighborhood Transportation Improvements and Safety Improvements, include many smaller subprojects. Of the 56 site-specific projects, 90% are complete or currently under construction.

While 1997 HURF revenue projects were originally planned for completion by Fiscal Year 2013/14, a lack of HURF revenues caused by the economic downturn, sweeps by the State Legislature and more fuel efficient vehicles, means that projects have taken longer to complete. For Fiscal Year 2017/18, HURF revenues to Pima County are projected to total approximately \$60.2 million, and 32.1% are forecasted to repay debt for these transportation projects. Several projects are also reliant on Regional Transportation Authority (RTA) funding and scheduling. Three projects are managed by the City of Tucson.

New Pima Animal Care Center under construction.

2014 General Obligation Bond Program, Pima Animal Care Center - Active

In 2014, Pima County voters approved \$22 million for a new and improved Pima Animal Care Center (PACC) to replace the existing facility located at 4000 N. Silverbell Road. On October 4, 2016, Pima County held a groundbreaking ceremony, marking the beginning of construction for Phase 1 of the project, which will primarily construct the new portions of the facility east of the existing building. Phase 1 is scheduled to be substantially complete in December 2017. At the completion of Phase 1, PACC's pets and staff will move to the new building while the Phase 2 renovation and partial demolition of the existing facility takes place. Full completion is expected in 2018.

PACC operates the largest pet shelter and adoption facility in Southern Arizona. The live-release rate at PACC has doubled since 2008 as a result of improved adoption programs, more partnerships with rescue organizations, expanded veterinary and medical treatment, and behavioral rehabilitation. Approximately 17,000 animals were taken into PACC's care over the past fiscal year, and PACC enforcement officers responded to over 24,000 calls for animal welfare and public safety in Pima County over that time. The new facility will improve PACC's operations, further support their role in the community and increase the quality of their services.

1997 General Obligation Bond Program – Substantially Complete

In May 1997, Pima County voters approved \$257 million in general obligation bonds for a variety of capital improvement projects throughout Pima County, including within cities and towns.
