One-day Experiences

These experiences are quick introductions to the fundamentals of glass making. They are exciting, safe, and great for sharing with loved ones, coworkers, and friends. Receive a 10% discount for groups of 10 people or more.

Every student who comes to participate in glass making classes is required to wear eye protection and closed toed shoes. No exceptions will be made!

BLOW YOUR OWN... EVENTS

Our Blow Your Own... events are quick (15-30 minute) introductions to furnace glassblowing that we offer September-May. You choose the color and style of your piece then assist our instructor to blow air into the blow pipe and shape the glass. Students can take as active or passive a role based on their comfort level. BYOs are perfect for individuals (ages 5+), families, team building activities, or tour groups of up to 30 people. Each BYO is unique but we do work within specified parameters to keep costs down. ** Ornaments are 4"; Bowls are 5"x6"; Vases are 9"x5"; Pumpkins are 6"x6" wide. Your piece will be ready for pick-up 3 days after your appointment or can be shipped at your cost. Please arrive 5-10 minutes early for your appointment. Call to schedule!

**We can accommodate some special requests during BYOs, including decanters, small platters, and simple variations off our standard offerings; expect to pay \$20-\$80 extra. We do not make goblets, light fixtures, sinks, or large (over 8" diameter) projects during these appointments. Our staff is happy to make custom projects outside of class time; please call for a quote.

622-1112-1214
