Each year the conference is hosted by a county within the fifteen Western states—Alaska, Arizona, California, Colorado, Hawai'i, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming—and provides attendees with the opportunity to interact with federal, state and regional policymakers, participate in educational sessions and take home tools to address challenges.

DRAFT AGENDA

3.24.16

TUESDAY, MAY 24

12:00 p.m. - 6:00 p.m. **MOBILE WORKSHOP** (*Pre-Registration Required*)

Exploring Wyoming's Natural Resources: Energy Production on Public Lands

A comfortable and scenic bus ride through the Bridger-Teton National Forest along the famous Snake and Hoback Rivers will bring you to Teton County's neighbor to the south, Sublette County, Wyoming. In addition to breathtaking views of the Wind River and Wyoming Range mountains, Sublette County is home to the largest public lands oil and gas field in the United States. Combined, the Jonah Field and the Pinedale Anticline boast an estimated 50 trillion cubic feet of natural gas reserves. On this tour you will see massive scale energy production on public lands up close, and the just as massive effort to minimize the impacts of that development. Industry and county officials will brief you on how this production can successfully coexist with the abundant wildlife in Sublette County, and how the County has partnered with industry and the state to dramatically reduce ozone causing emissions. You may even see some of Wyoming's wildlife crossing one of Sublette County's wildlife overpasses.

Be sure to wear comfortable walking shoes and dress to be outside. Please allow approximately 6 hours for this tour.

TUESDAY, MAY 24 (Continued)

12:15 p.m. - 5:30 p.m. **MOBILE WORKSHOP** (*Pre-Registration Required*)

Behind the Scenes of Grand Teton National Park: Intergovernmental Collaboration at Work
Join senior Grand Teton National Park officials in a behind-the-scenes tour of one of our most popular national treasures. Towering over Wyoming's sagebrush plains, the Tetons soar to elevations above 13,000 feet, providing spectacular views and unparalleled opportunities for wildlife watching and recreation. Last year, Grand Teton National Park attracted a record number of visits – 4.6 million. On this mobile workshop, you can sit back and take in the scenery and wildlife, while also learning about the visitor services, utilities, emergency services, concession operations and partnerships that it takes to run a large, complex national park. This bus tour will travel through the heart of the national park, where you will learn about unique collaborative efforts by local, state and federal agencies, including the Jackson Hole Airport (the only commercial airport in a national park), state-owned land parcels within national park boundaries and cooperative emergency services. The tour wouldn't be complete without a stop at the world-renowned Jackson Lake Lodge for beautiful views and some Wyoming hospitality.

Be sure to wear comfortable walking shoes and dress to be outside. Please allow approximately 6 hours for this tour.

7:30 p.m. - 9:00 p.m. **FILM SCREENING: The Grand Rescue**

THE GRAND RESCUE is a story of a rescue that became legend. In 1967, on the North Face of the Grand Teton, seven rescuers risked their lives to save a severely injured climber and his companion. The rescue took three harrowing days and pushed the team to new abilities. Remarkably, the injured climber was critical of those who risked their lives to save his. THE GRAND RESCUE exposes the tenuous relationship between man and the mountain, and recounts an unprecedented rescue in American mountaineering.
