REPORT HIGHLIGHTS
FINANCIAL STATEMENT AUDIT

Subject

Pima Health System and Services (System) issues financial statements annually. The System is responsible for preparing financial statements, maintaining strong internal controls, and demonstrating compliance with its contractual arrangements with the Arizona Health Care Cost Containment System (AHCCCS). As the auditors, we determined whether the System has met its responsibilities.

Our Conclusion

The information in the financial statements is fairly stated in all material respects, and the financial statements can be relied on. Our audit also determined that the System maintained adequate internal controls and substantially complied with the AHCCCS contract requirements.

2005

Year Ended June 30, 2005

AHCCCS and ALTCS Health Plan Members and Operating Revenues Increased

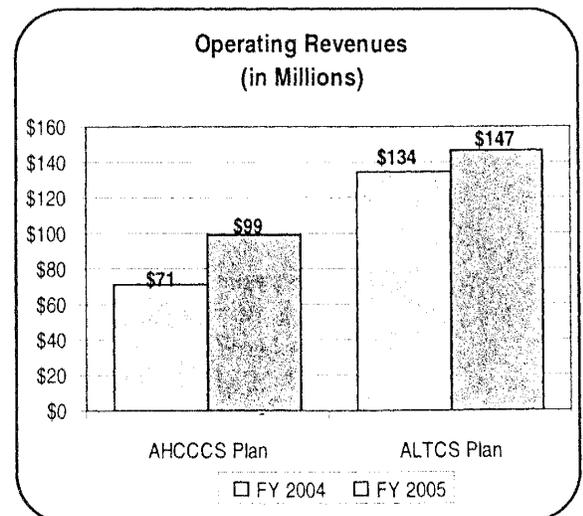

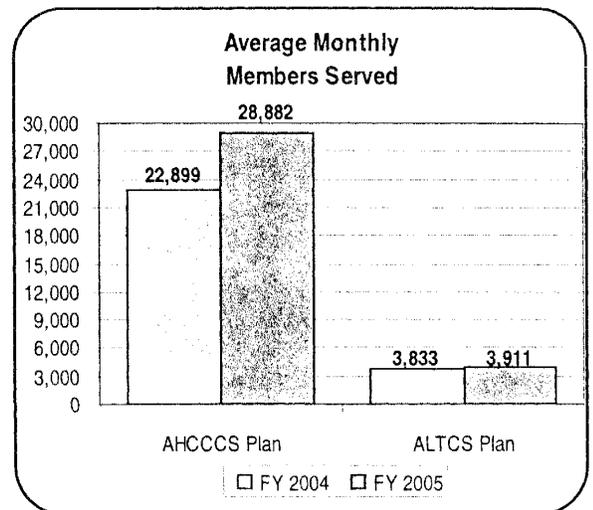

Pima Health System and Services administers Pima County's contracts with the Arizona Health Care Cost Containment System to operate managed care plans. The plans provide medical services and long-term care to Pima County and Santa Cruz County plan members. Medical services are administered under the AHCCCS plan, and long-term care and medical services are administered under the ALTCS plan.

AHCCCS Health Plan

The AHCCCS plan's average monthly membership increased by 26 percent and its operating revenues increased by 39 percent during fiscal year 2005. The increase in operating revenues resulted from the increase in members served along with an increase in the state rates paid for each member served.

ALTCS Health Plan

The ALTCS plan's average monthly membership increased by 2 percent and its operating revenues increased by 10 percent during fiscal year 2005. The increase in operating revenues primarily resulted because the State increased the rates it pays for the plan's members.

Subject: Management Letter

Members of the Board:

In planning and conducting our audit of Pima Health System and Services (System) for the year ended June 30, 2005, we performed the following as required by U.S. generally accepted auditing standards and the *Arizona Administrative Code*, Title 9, Chapters 22 and 28, as detailed in the *Reporting Guide for Acute Health Care Contractors with the Arizona Health Care Cost Containment System* and the *Financial Reporting Guide for Arizona Long-Term Care System Program Contractors with the Arizona Health Care Cost Containment System*:

- Considered the System's internal controls over financial reporting and
- Tested its compliance with laws and regulations that could have a direct and material effect on its financial statements.

We noted no internal control weaknesses or instances of noncompliance that we consider to be material to the financial statements.

This letter is intended solely for the information of the Pima County Board of Supervisors, the System's management, and the Arizona Health Care Cost Containment System and is not intended to be and should not be used by anyone other than the specified parties. However, this letter is a matter of public record, and its distribution is not limited.

Should you have any questions concerning its contents, please let us know.

Sincerely,

Auditor General

Independent Auditors' Report

Members of the Arizona State Legislature

The Board of Supervisors of Pima County, Arizona

We have audited the accompanying financial statements of Pima Health System and Services as of and for the year ended June 30, 2005, as listed in the table of contents. These financial statements are the responsibility of Pima Health System and Services' management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1, Pima Health System and Services' financial statements are intended to present the financial position, and the changes in financial position and cash flows, of only that portion of the business-type activities and major funds of the County that is attributable to the Pima Health System and Services Fund. They do not purport to, and do not, present fairly the financial position of Pima County as of June 30, 2005, and the changes in financial position and cash flows, in conformity with U.S. generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Pima Health System and Services as of June 30, 2005, and the changes in financial position and cash flows, for the year then ended in conformity with U.S. generally accepted accounting principles.

As discussed in Note 1, Pima Health System and Services implemented the provisions of Governmental Accounting Standards Board (GASB) Statement No. 40, *Deposit and Investment Risk Disclosures*, for the year ended June 30, 2005, which represents a change in accounting principle.

Our audit was conducted for the purpose of forming an opinion on the financial statements of Pima Health System and Services. The accompanying financial information listed as supplementary schedules in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Pima Health System and Services
Notes to Financial Statements
June 30, 2005

Note 1 - Summary of Significant Accounting Policies

The accounting policies of Pima Health System and Services (the System) conform to U.S. generally accepted accounting principles (GAAP) applicable to governmental units as promulgated by the Governmental Accounting Standards Board (GASB). The System's financial statements have been prepared in a format that complies with U.S. GAAP and the regulatory requirements of the State of Arizona. A summary of the system's more significant accounting policies follows.

During the year ended June 30, 2005, the System implemented the provisions of GASB Statement No. 40, *Deposit and Investment Risk Disclosures*. GASB Statement No. 40 establishes and modifies the risk disclosures about the System's deposits and investments. The implementation of GASB Statement No. 40 requires only additional disclosures, and had no effect on reported cash and cash equivalents.

A. Reporting Entity

The System is responsible for overseeing the operations of Pima Health System (the AHCCCS contracts), Posada Del Sol Nursing Home, the Grants and Community Services System, and other Pima County programs.

The System is accounted for as an enterprise fund of Pima County, Arizona and the ultimate financial accountability for the System remains with Pima County. The financial statements present only the System and are not intended to present the balances and activity of Pima County or its business-type activities and enterprise funds. The System is a contractor with the Arizona Health Care Cost Containment System (AHCCCS) Administration to provide health care services to eligible enrollees of the AHCCCS Ambulatory and Arizona Long-Term Care System (ALTCS) programs. The Ambulatory program provides both inpatient and outpatient medical and nursing services to eligible enrollees of the Ambulatory program. The ALTCS program provides inpatient and outpatient medical and nursing services in addition to managed institutional and home- and community-based long-term care services to eligible enrollees of the ALTCS program. The system also provides long-term care services to Posada del Sol Nursing Home residents who are primarily ALTCS enrollees. The system receives monthly premiums from AHCCCS for all eligible enrollees under the respective Ambulatory and ALTCS programs.

B. Fund Accounting

The System's accounts are maintained in accordance with the principles of fund accounting to ensure that limitations and restrictions on the System's available resources are observed. The principles of fund accounting require that the resources be classified for accounting and reporting purposes into funds in accordance with the activities or objectives specified for those resources. Each fund is considered a separate accounting entity, and its operations are accounted for in a separate set of self-balancing accounts that comprise its assets, liabilities, net assets, revenues, and expenses. The System's financial transactions are recorded and reported as an enterprise fund since its operations are financed and operated in a manner similar to private business enterprises, in which the intent of the County Board of Supervisors is that the costs (expenses, including depreciation) of providing goods or

Pima Health System and Services

Notes to Financial Statements

June 30, 2005

services on a continuing basis be financed or recovered primarily through user charges. The measurement focus of the fund is on the flow of economic resources. With this measurement focus, all assets and all liabilities associated with the operation of the System are included on the statement of net assets. Net assets are segregated into invested in capital assets, restricted for health care, and unrestricted. The statement of revenues, expenses, and changes in net assets presents increases, such as revenues, and decreases, such as expenses, in net total assets.

The System follows Financial Accounting Standards Board Statements and Interpretations issued on or before November 30, 1989; Accounting Principles Board Opinions; and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements. The System has chosen the option not to follow FASB Statements and Interpretations issued after November 30, 1989.

C. Basis of Accounting

Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied, and determines when revenues and expenses are recognized in the accounts and reported in the financial statements. The financial statements of the System are presented on the accrual basis of accounting. Revenues are recognized when they are earned, and expenses are recognized when they are incurred. The System funds certain programs with restricted and unrestricted resources. When both are available, the System applies restricted resources first.

Interfund transactions with other Pima County funds are recorded in the appropriate revenue or expense account. Intrafund transactions within the System are eliminated for financial statement presentation.

D. Basis of Presentation

The financial statements include a statement of net assets; a statement of revenues, expenses, and changes in net assets; and a statement of cash flows. A statement of net assets provides information about the assets, liabilities, and net assets of the System at the end of the year. Assets and liabilities are classified as either current or noncurrent. Net assets are classified according to external donor restrictions or availability of assets to satisfy the System's obligations. Invested in capital assets represents the net value of capital assets. Restricted net assets represent grants, contracts, and other resources that have been externally restricted for specific purposes. Unrestricted net assets include all other net assets, including those that have been designated by management to be used for other than general operating purposes.

A statement of revenues, expenses, and changes in net assets provides information about the System's financial activities during the year. Revenues and expenses are classified as either operating or nonoperating, and all changes in net assets are reported, including capital contributions and transfers. Generally, capitation and other charges generated by the System for providing health care services are considered to be operating revenues. Other revenues used for health care, such as grants and interest earnings, are not generated from operations and are considered to be nonoperating revenues. Operating expenses include the costs of

Pima Health System and Services

Notes to Financial Statements

June 30, 2005

providing health care services, administrative expenses, and depreciation on capital assets. Other expenses, such as interest expense and AHCCCS premium taxes are considered to be nonoperating expenses.

A statement of cash flows provides information about the System's sources and uses of cash and cash equivalents during the year. Increases and decreases in cash and cash equivalents are classified as operating, noncapital financing, capital financing, or investing.

E. Cash and Cash Equivalents

For purposes of the statement of cash flows, cash and cash equivalents consist of cash on hand and cash and investments held by the Pima County Treasurer. All investments are stated at fair value.

F. Due from Other Governments

Due from other governments consists of amounts due from AHCCCS based on contractual agreement provisions of the Ambulatory and ALTCS programs.

G. Inventory of Supplies

Inventories are recorded as assets when purchased and expensed when consumed. These inventories are stated at cost using the first-in, first-out method.

H. Capital Assets

Capital assets are capitalized at cost. Donated assets are capitalized at their estimated fair market value on the date received. The System capitalizes all land and buildings regardless of cost and all other capital assets valued at \$5,000 and above. Depreciation of assets is charged as an expense against operations. Assets are depreciated over their estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Leasehold improvements	7 to 10 years
Machinery and equipment	5 to 15 years

I. Accrued Employee Compensation

Accrued employee compensation consists of annual leave and a calculated amount of sick leave earned by employees based on services already rendered. Employees may accumulate up to 240 hours of annual leave, but any annual leave hours in excess of the maximum amount that are unused at the end of the employee's anniversary year are forfeited. Upon termination of employment, all unused and unforfeited annual leave benefits are paid to employees. Generally, sick leave benefits provide for ordinary sick pay and are cumulative but are forfeited upon termination of employment. Because sick leave benefits do not vest with employees, a liability for sick leave benefits is not accrued in the financial statements. However, for employees who retire with 20 or more years of service, some accumulated sick leave benefits do vest based on various criteria and, therefore, are accrued.

J. Medical and Health Care Claims Payable

The System utilizes a number of factors when estimating the incurred but not reported (IBNR) portion of the medical claims payable liability. These include historical payment

Pima Health System and Services

Notes to Financial Statements

June 30, 2005

patterns as well as changes in the either the general business environment or in contractual agreements with its providers. This estimate is solely based upon management's knowledge of these various factors and can ultimately be in excess of or below the actual liability. However, the methodology for estimating this liability is consistently reviewed and refined in order to provide an accurate estimate of the IBNR liability.

K. Grant Revenues

Grants and assistance awards made on the basis of entitlement periods are recorded as grants receivable and revenues when entitlement occurs. Reimbursement grants are recorded as grants receivable and revenues as soon as all eligibility requirements have been met.

Note 2 - Cash and Cash Equivalents

Cash and cash equivalents at June 30, 2005 on the statement of net assets were as follows:

Cash on hand	\$ 2,500
Cash and investments in the Pima County Treasurer's investment pool	<u>21,586,407</u>
Total	\$21,588,907

Cash and investments in the Pima County Treasurer's investment pool represent a portion of the County Treasurer's pool portfolio. There is no oversight provided for the County Treasurer's investment pool, and the pool's structure does not provide for shares. The System's portion in the pool is not identified with specific investments.

Credit Risk—Credit risk is the risk that an issuer or counterparty to an investment will not fulfill its obligations. The County does not have a formal investment policy with respect to credit risk. The Pima County Treasurer's investment pool is unrated.

Interest Rate Risk—Interest rate risk is the risk that changes in interest rates will adversely affect an investment's fair value. The County does not have a formal investment policy with respect to interest rate risk. The Pima County Treasurer's investment pool had a weighted average maturity of 84 days at June 30, 2005.

Legal Provisions—Arizona Revised Statutes authorize counties to invest public monies in the State Treasurer's investment pool; obligations issued or guaranteed by the United States or any of the senior debt of its agencies, sponsored agencies, corporations, sponsored corporations, or instrumentalities; specified state and local government bonds; interest earning investments such as savings accounts, certificates of deposit, and repurchase agreements in eligible depositories; and specified commercial paper, bonds, debentures, and notes issued by corporations organized and doing business in the United States. In addition, the County Treasurer may invest trust funds in fixed income securities of corporations doing business in the United States or District of Columbia.

Credit risk—Statutes have the following requirements for credit risk:

1. Commercial paper must be rated P1 by Moody's investors service or A1 or better by Standard and Poor's rating service.

Pima Health System and Services

Notes to Financial Statements

June 30, 2005

2. Corporate bonds, debentures, and notes must be rated A or better by Moody's investors service or Standard and Poor's rating service.
3. Fixed income securities must carry one of the two highest ratings by Moody's investors service and Standard and Poor's rating service. If only one of the above-mentioned services rates the security, it must carry the highest rating of that service.

Custodial credit risk—Statutes require collateral for demand deposits, certificates of deposit, and repurchase agreements at 101 percent of all deposits not covered by federal depository insurance.

Concentration of credit risk—Statutes do not include any requirements for concentration of credit risk.

Interest rate risk—Statutes require that public monies invested in securities and deposits have a maximum maturity of 5 years and that public operating fund monies invested in securities and deposits have a maximum maturity of 3 years. Investments in repurchase agreements must have a maximum maturity of 180 days.

Foreign currency risk—Statutes do not allow foreign investments.

Note 3 - Receivables

A. Accounts Receivable

Accounts receivable include amounts due from third-party payors for health care services provided to patients. The accounts receivable balance is based on management's evaluation of the collectibility of such accounts.

B. Reinsurance Claims Receivable

Reinsurance claims receivable and revenues result from additional payments from the AHCCCS Administration to the System for certain enrollees whose medical expenses paid by the System during the year ended June 30, 2005, were in excess of specified deductible limits.

Note 4 - Capital Assets

Capital asset activity for the year ended June 30, 2005 was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Leasehold improvements	\$1,116,257			\$1,116,257
Accumulated depreciation	<u>(549,521)</u>	<u>\$ (94,414)</u>		<u>(643,935)</u>

Note 5 - Medical and Health Care Claims

Medical and health care claims payable consists of estimates of \$18,311,643 incurred but not reported claims and \$6,244,605 reported but unpaid claims in the AHCCCS Ambulatory and ALTCS programs and the Grants and Community Service System.

Note 6 - Due to Other Pima County Funds

Due to other Pima County funds represents advances received from other County funds to eliminate cash overdrafts in the System's following programs.

Grants/Community Services System	2,742,372
Other Pima County Programs	<u>925,308</u>
Total	<u>\$3,667,680</u>

Note 7 - Capitation

Capitation revenues consist of the following amounts:

ALTCS long-term care	\$130,107,853
AHCCCS ambulatory/acute care	87,882,643
ALTCS ventilator dependent	4,357,437
Pima County residual	<u>94,516</u>
Total	<u>\$222,442,449</u>

Note 8 - Related Party Transactions

During the course of its operations, the System had numerous transactions with other Pima County funds to finance operations and provide services. During the year ended June 30, 2005, capitation revenues included \$94,516 from Pima County departments for services provided to County patients. In addition, the System received interest income totaling \$769,670 from the Pima County Treasurer. The System incurred expenses totaling \$2,998,115 from Pima County for the allocation of overhead, insurance premiums, interest, and other charges for miscellaneous supplies and services.

Note 9 - Risk Management

The System is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; medical malpractice; and natural disasters. The System is a participant in Pima County's self-insurance program, and in the opinion of the System's management, that self-insurance program would cover any unfavorable outcomes from these risks. Accordingly, the System has no risk of loss beyond adjustments to future years' premium payments to Pima County's self-insurance program. All estimated losses for unsettled claims and actions of the System are determined on an actuarial basis and are included in the *Pima County Comprehensive Annual Financial Report*.

Pima Health System and Services
Notes to Financial Statements
June 30, 2005

The System has obtained modified claims-made insurance policies to cover medical malpractice claims. Deductibles are the responsibility of Pima County through Risk Management and are \$1,000,000 per claim with an annual deductible aggregate of \$3,000,000. The System's medical malpractice coverage started on October 1, 1993. Claims occurring before these dates were Pima County's responsibility through Risk Management. Settled claims have not exceeded insurance coverage in any of the prior three fiscal years.

Note 10 - Retirement Plan

Plan Description—The System contributes to a cost-sharing multiple-employer defined benefit pension plan administered by the Arizona State Retirement System (ASRS). Benefits are established by State statute and generally provide retirement, death, long-term disability, survivor, and health insurance premium benefits. The ASRS is governed by the Arizona State Retirement System Board according to the provisions of A.R.S. Title 38, Chapter 5, Article 2.

The ASRS issues a comprehensive annual financial report that includes financial statements and required supplementary information. The most recent report may be obtained by writing the ASRS, 3300 North Central Avenue, PO Box 33910, Phoenix, Arizona 85067-3910, or by calling (602) 240-2000 or (800) 621-3778.

Funding Policy—The Arizona State Legislature establishes and may amend active plan members' and the System's contribution rate. For the year ended June 30, 2005, active plan members and the System were each required by statute to contribute at the actuarially determined rate of 5.70 percent (5.20 percent retirement and 0.50 percent long-term disability) of the members' annual covered payroll. The System's contributions to the ASRS for the years ended June 30, 2005, 2004 and 2003, were \$1,430,006, \$2,159,438, and \$1,152,974 respectively, which were equal to the required contributions for the year.
