

How to Set Up a Connection to a Pima County ArcGIS Server Service

1. Open ArcCatalog.
2. Double click on Add ArcGIS Server from the Catalog Tree.
3. Be sure to check Use GIS Services. Click Next.

4. Under Internet Server URL, type: <http://pcmaps1.pima.gov/arcgis/services> The Authentication (Optional) can be left blank. Click Finish. It will take a moment to run.

5. There is now a connection with arcgis on pcmaps1.pima.gov under the GIS Servers in ArcCatalog.
