

Pima County Regional Flood Control District
PUBLIC OPEN HOUSE
Arroyo Chico – High School Wash Storm Drain Improvements
 Wednesday, September 18, 2013
 6:00 p.m. to 7:30 p.m. • Presentation at 6:15 p.m.
 Miles Elementary School • 1400 E. Broadway Blvd.

Please join the Pima County Regional Flood Control District for a public open house for the **Tucson Drainage/Arroyo Chico Project Increment 4 High School Wash Storm Drain Improvements**.

The purpose of the meeting is to introduce the project and to gather feedback from the community. The U.S. Army Corps of Engineers is preparing to start construction in January 2014. The proposed project increment consists of the following:

- Construction of a new major drain under 8th Street from 4th Avenue to 3rd Avenue, running north across the open field at Tucson High School, and terminating south of the stadium. This new storm drain will re-route flows in the existing High School Wash Storm Drain into the recently completed 8th Street Drainage Improvements.
- New catch basins to collect and remove street runoff on 3rd Avenue and 8th Street.

Please feel free to stop by and review project displays between 6:00 p.m. and 7:30 p.m. There will be a short presentation at 6:15 p.m.

For additional information regarding the project see the Regional Flood Control District project website at <http://rfcd.pima.gov/projects/arroyochico/>

Individuals with disabilities who require accommodations for effective participation and communication in the meeting may call Carol Brichta at PCDOT Community Relations at (520) 724-6410 by September 7, 2013 to make arrangements. All meeting sites are accessible.
