

# NATIONAL FLOOD INSURANCE PROGRAM

FEMA PRODUCTION AND TECHNICAL SERVICES CONTRACTOR

June 28, 2010

Mr. Richard Elias  
Chairman, Pima County  
Board of Supervisors  
130 West Congress, 11th Floor  
Tucson, AZ 85701

IN REPLY REFER TO:  
Case No.: 09-09-2642P  
Follows Conditional  
Case Nos.: 04-09-1206R  
04-09-0594R  
Community: Pima County, AZ  
Community No.: 040073

316-PMR

Dear Mr. Elias:

This is in reference to a request for a revision to the effective Flood Insurance Rate Map (FIRM) and Flood Insurance Study (FIS) report for Pima County, Arizona and Incorporated Areas. Information pertinent to this revision request is listed below.

Requester:	Ms. Suzanne Shields, P.E.
Flooding Sources:	Agua Caliente Wash, Agua Caliente Wash Spur, and Agua Caliente Wash Split
FIRM Panels Affected:	04019C1670K, 1690K, 2256K, and 2257K

We have completed our review of the submitted data and determined that the FIRM and FIS report should be revised as Physical Map Revision (PMR). As a result of this PMR, the flood hazard information along Agua Caliente Wash will be revised from the confluence with Tanque Verde Creek to approximately 730 feet upstream of Horsehead Road; along Agua Caliente Wash Spur from approximately 2,860 feet downstream to approximately 2,270 feet upstream of Tanque Verde Road; and along Agua Caliente Wash Split from approximately 1,440 feet upstream to approximately 3,600 feet upstream of confluence with Tanque Verde Creek. Because this revision request also affects the City of Tucson, Arizona, they have been notified of this PMR separately.

Due to funding constraints, FEMA is not able to initiate the PMR at this time. It is not possible to incorporate the requested changes into the ongoing Digital Flood Insurance Rate Map (DFIRM) update for Pima County, Arizona and Incorporated Areas, as the revision and republication process will cause significant delays to the ongoing DFIRM, which is scheduled to become effective in 2011. As soon as FEMA Region IX has programmed funds to process the PMR, preliminary copies of the FIRM panels and FIS report will be distributed for review to determine if any additional changes are warranted.

In accordance with Paragraph 60.3 (b)(4) of the National Flood Insurance Program (NFIP) regulations (copy enclosed), we encourage your community to reasonably use the work maps entitled "Agua Caliente Floodplain Workmap Proposed Conditions," Sheets 1-5, prepared by West Consultants, Inc., dated May 2009, as the best available data for floodplain management purposes until such time as FEMA can physically revise the FIRM and FIS report.
