

Title: **Confidentiality**

Index: 101-C

Effective Date: March 1, 2014

Revision/Date: 1/ September 2017

Author: Dane C. Crouse, DHFD

Owner: Operations Working Group

1. Purpose

- a. The purpose of this policy is to control dissemination of system configuration and programming information related to the Pima County Wireless Integrated Network (PCWIN).

2. Background

- a. The unauthorized release of confidential system configuration information may increase the risk of unauthorized transmissions, interference, or monitoring of public safety radio communications channels
- b. This policy does not supersede individual agency policy regarding Confidentiality of Information.

3. Policy Statement

- a. PCWIN is a radio communications network that supports both public safety and public service operations. As such information related to system configuration or operation is sensitive and should not be released or shared
- b. The PCWIN Executive Director is responsible for oversight of the protection of PCWIN system-related information and is the sole point of contact for any system-related public information release request.

4. Applies to

- a. All agencies that have access to confidential information regarding PCWIN

5. Supporting Rules

- a. None

6. Conditions for Exemption or Waiver

- a. None
