

**Notes:** Due to the topography, geomorphology, and/or natural resources that are present, land may contain Flood Control Resource Areas. These Areas include FEMA Special Flood Hazard Areas, known local-identified floodplains, Pima County Regulated Riparian Habitat, and other natural watercourses. Development in these areas should be avoided by transferring allowable densities to the non-affected portions of the development.

The major washes shown with a line symbol on this Land Use Map are illustrative only. For more detail, refer to the Regional Hydrology Maps in Section 4.9.

**Disclaimer:** The information depicted on this display is the result of digital analyses performed on a variety of databases provided and maintained by several governmental agencies. The accuracy of the information presented is limited to the collective accuracy of these databases on the date the display was created. Pima County makes no claims regarding the accuracy of the information depicted herein.
