**PART 1:** (Groups 1 through 4) of the Bid Schedule requires fixed prices for specific jobs as described in the heading of each group. Prices are requested for motors or assemblies of various horsepower ratings. The extended price for each line item in Group 1 is unit price multiplied by quantity. The **extended price** for each line item in Groups 2 through 4 is the product of the **combined amount** of the unit price for the overhaul (first unit price) plus the unit price for the stator rewind (second unit price) **multiplied** by the **quantity** for that line item. The total of each Group is the sum of the extended prices of the line items in each Group. The Grand Total for Part 1 is the sum of Groups 1, 2, 3 and 4.

The base bid per horsepower for Groups 1 through 3 shall be based on 1800 RPM (4 pole) T-frame motors. Suppliers shall state, under Part 2 of the Price Page, the percentage above or below the base bid for 1200 RPM (6 pole) motors, 3600 RPM (2 pole) motors and for U-frame motors.
