## **IFB #170958 Rental of Specialized Off-Road Equipment**

### **Addendum #1**

Please be aware of the following changes to the above referenced IFB.

**1. REPLACE: Attachment B – Equipment Requirements, Page 18 of 20, from the original bid package with the following REVISED Attachment B – Equipment Requirements, Page 18 of 20.**

**Vendor shall use/insert the REVISED pages in the bid response or bid response may be deemed non-responsive. Please refer back to your original bid document for the Offer Agreement.**

All other specifications, terms and conditions remain the same.

*Nancy Page*  
Commodity Contracts Officer

**Title: Rental of Specialized Off-Road Equipment****Attachment B – Equipment Requirements**

- 1) **Gannon Tractor, Four Wheel Drive, enclosed cab\* with A/C, 1.1 yard loader bucket, New Holland U80 or equivalent.** RWRD - The Back Hoe and Gannon, enclosed cab\* Tractor equipment is required since the process of handling these drying beds and working around them produces air borne pathogens that may be harmful to the operator of the equipment. Transportation uses this equipment for flood control, drainages and roadways.
- 2) **Track Hoe excavator, enclosed cab\* with A/C and heater. 55,000 lb. excavating machine with a long reach. Maximum digging reach of 60'.** This equipment is used when there is a need to turn the solids at the Green Valley WRF Facility. The Track Hoe will use its long reach to reach in and turn over these drying beds from the sides, and the track drive to maneuver around these very slick and slippery beds in the Sub-Regional Facilities.
- 3) **Tractor, Four Wheel Drive, rear PTO, 2/3 yard bucket, NO enclosed cab with three point hitch so a brush/mower can be attached. New Holland, Workmaster 35 or equivalent.** Department of Transportation uses this equipment for drainages and shoulder roadways, pre and post monsoon season.
- 4) **Five Yard Articulating Loader, enclosed cab\* with A/C and heater. Hyundai HL780 or equivalent.** This will be used to work tight areas around the drying beds at Sub-Regional Treatment Facilities. It is needed when large volumes of solids or materials must be moved in the plants.
- 5) **Agriculture Dual Rear Wheel Tractor, four wheel drive, enclosed cab\* with A/C and heater, 3 point rear hitch. New Holland T7 or equivalent.** This equipment will be used at various plants to pull a disc attachment (#9 below) to maintain percolation beds.
- 6) **Back Hoe, four wheel drive, enclosed cab\* with A/C, 1.3 yard bucket, 110 h.p. w/extendahoe. New Holland B110 or equivalent.** This equipment will be used for repairing underground equipment at all RWRD's facilities.

\*enclosed cab - The process of handling these drying beds and working around them produces air borne pathogens that may be harmful to the operator of the equipment which is why the enclosed cab is required.

**ATTACHMENTS:**

- 7) **72" PTO powered Brushhog mower attachment. Land Pride RCR1872 or equivalent.** This will be used with the Tractor (#3) above for maintaining the weed and grass growth around these drying beds.
- 8) **Box Scraper, Gannon HD24484HXD or equivalent.** This can be used with the Gannon Tractor (#1) above and the Back Hoe (#6) above.
- 9) **Folding Tandem Disc Harrow, 22' - 24' width, blades 9" – 12" (blade spacing).** This can be used with the Agriculture Dual Rear Wheel Tractor (#5) above.
