**Pass carefully on The Loop**

**Bicycle:I** On a shared use pathway, slow down or appropriate when approaching other trail users, give a verbal warning such as “Passing” when you are about to pass, and provide at least five feet passing distance. Yield to oncoming traffic if you have to pass into their lane.

**Pedestrian:** Please watch and listen for cyclists and provide space on the path for them to pass safely. Don’t suddenly stop or change direction on the path.

**Safety on The Loop**

- **Always carry enough water, especially during hot weather.**
- **In summary, the salted ice in succession is during the cool parts of the day – before 10 a.m. and after 4 p.m.**
- **In less travelled areas of the path, be aware of your surroundings and, whenever possible, walk or ride with a friend.**
- **When riding or walking on The Loop, carry some form of identification, tell someone where you’re going and carry a cell phone.**
- **Give wildlife a wide berth. Watch out for javelina, coyotes, bats and rattlesnakes, particularly around sunrise and sunset, and never approach a wild animal.**
- **Always keep your dog leashed and under control. Keep your pet close at your side to avoid injuring other path users who could become tangled in the leash.**
- **Bicyclists should carry a tool kit and all items necessary to repair a breakdown on the go. Assume that your bike is in good condition before starting a ride.**
- **Do not ride your bicycle at a speed that would feel frightening to non-cyclists using The Loop. Remember: The Loop is for cruising, not racing.**
- **Be aware of people with disabilities and respect their needs. All path users should yield to people with disabilities.**
- **If you encounter a horse and rider, slow down or come to a full stop, and ask the rider if it’s safe to pass.**
