

The Problem

Loose needles & syringes thrown in the trash injure people.

The Solution

Safe Disposal of Sharps such as: Syringes, Needles, & Lancets.

- Place sharps in a hard plastic container with a twist-on cap.
- Label the container: **“Do NOT Recycle”**.
- Once full: Tighten cap on container & reinforce with heavy duty tape.
- Place the container in the regular trash.

Remember

- Keep the container out of reach of children and pets.
- Never flush needles or syringes down the toilet.
- Place tightly sealed container in the trash.
- Do not overstuff the container.
- Never use clear plastic or glass containers.
