

## ACTIVE MANAGERIAL CONTROL POLICY: REHEATING

Business Name: \_\_\_\_\_

Effective Date: \_\_\_\_\_

Next Review Date: \_\_\_\_\_

**Why this is important:** There is an increased risk from contamination caused by personnel, equipment, procedures and other factors when food is cooked, cooled and reheated in a food establishment. If food is held at improper temperatures for enough time, pathogens have the opportunity to multiply to dangerous numbers. Proper reheating provides a major degree of assurance that pathogens will be eliminated.

### PROCEDURES

<p><b>Who does this apply to:</b></p> <p>[Critical Elements: Describe who is responsible for reheating of TCS foods in your food service establishment. Include these personnel in the development process]</p>	
<p><b>When will this be performed:</b></p> <p>[Critical Elements: Describe when reheating of TCS foods is performed at your food service establishment]</p>	

<p><b>Where does this take place:</b></p> <p>[Critical Elements: Describe where reheating of TCS foods is performed at your food service establishment]</p>	
<p><b>How is this completed:</b></p> <p>[Critical Elements: Describe how proper reheating of TCS foods is ensured at your food service establishment. P.C.C. 3-403.16 requires all TCS foods to be reheated to appropriate time/temperature parameters]</p>	
<p><b>Corrective Action:</b></p> <p>[Critical Elements: Describe what corrective actions are taken if TCS foods are found to not have reached sufficient reheating temperatures within the time constraints . If applicable, provide details on how food is replaced]</p>	
<p><b>Monitoring Steps:</b></p> <p>[Critical Elements: Describe how reheating of TCS food is monitored at your food service establishment. If you use monitoring logs, describe their use here]</p>	

## TRAINING

**Training of Staff:**

[Critical Elements: Describe how food employees are trained on this policy and by whom. Instructions should include initial and applicable refresher training]

## VERIFICATION

**Verification of Policy:**

[Critical Elements: Describe who is responsible for verifying the policy is being followed, how the verification process is conducted, and how adjustments are made if the policy is not working]
