Phase CARES Request	\$ 30,000
Phase 36 Received	\$ 23,500 (EFSP)
Phase 35 Received	\$ 18,591(EFSP)

Note: FEMA funds are intended to be used to supplement or expand existing programs and services.

Describe how the organization intends to use these funds. Will the money requested in this proposal be used to support a service or program that was supported by FEMA funds in the past? If yes, describe below how services have been or will be expanded or supplemented.

Emerge Center Against Domestic Abuse (Emerge) will use FEMA funds to support emergency shelter services for survivors of domestic violence (DV) and their children. We have been fortunate to receive FEMA funds for our emergency shelter in past years. In combination with other funding sources, FEMA funds will enable EmERGE to cover the operating costs associated with running our 51-bed facility and hotel program, providing shelter for more than 600 people annually.

IV. NARRATIVE

Please answer the following questions. Limit answers to the space provided.

1. Give a brief explanation of your organization's ability to coordinate service delivery with other human service providers. Specifically identify the networks, coalitions and collaborative arrangements that your agency maintains.

Emerge takes a holistic approach to serving DV survivors and connects our shelter residents to community partners and resources. We work closely with other agencies to allow for “warm handoffs” and co-case management. Emerge also maintains grant partnerships with or without MOUs with several service providers. Our partners include the YWCA, Southern Arizona Legal Aid, Step Up to Justice, Community Food Bank, Southern Arizona Center Against Sexual Assault, Our Family Services, Primavera, Gabriel’s Angels, Assistance League, criminal justice/law enforcement agencies, behavioral health service providers, and more. Emerge is also an active member of the Arizona Coalition to End Sexual & Domestic Violence, Tucson Pima Collaboration to End Homelessness (TPCH) and various domestic violence task forces.

2. Describe any changes in the magnitude of the current need and/or service demand experienced since January 27, 2020 as a result of the COVID-19 pandemic and subsequent closures, (for example, number of requests or types of clients).

Emerge is the only provider of comprehensive DV support services in Pima County and the largest emergency shelter dedicated to serving DV survivors in Southern Arizona. In the past year, we have seen an increase in need for services from high-acuity survivors and those at high risk of being seriously injured or killed by an intimate partner, in part through referrals from law enforcement using the Arizona intimate Partner Risk Assessment Instrument System (APRAIS tool) while on-site for DV-related 911 calls. Additionally, our community is reeling from the impact of COVID-19 and among those most severely impacted are people experiencing domestic abuse. For that reason, we have taken every precaution to protect the health and safety of those who are still able to reach out to us for help. All Emerge services are open and available to survivors, including emergency shelter. We have made changes to shelter intake and daily operations to support social distancing and protect the health of residents.

3. Give a brief explanation of how your service(s) will be addressing a gap in existing services available to community members impacted by the pandemic.

People experiencing domestic violence (DV) are severely impacted by the COVID-19 pandemic in part because of high rates of unemployments, reduced access to opportunities to seek help, and increased incidences of violence under COVID-related isolation. DV is at epidemic proportions in Tucson and Pima County. The Tucson Police Department (TPD) and Pima County Sheriff's Department (PCSD) report responding to 15,000 DV calls to 911 last year (TPD, PCSD 2019). The combined cost to the community of responding to those calls was \$5.3 million, according to figures reported by the law enforcement agencies (TPD, PCSD 2019). According to the TPCH 2019 Pima County Point-in-Time Count Data Report, 130 of the 1164, or 11%, of homeless adults surveyed were survivors of domestic violence. Emerge provides emergency shelter with specialized, trauma-informed support for DV survivors. Our shelter services, which are designed to help DV survivors overcome the trauma caused by DV and exit to safe, stable housing, have been adapted to support social distancing and other safety measures related to COVID-19.

4. Explain any anticipated funding cuts. Identify the funding source anticipated to be reduced and describe any alternative funding sources sought by the organization to make up for these cutbacks.

Emerge anticipates significant funding cuts in the coming year. The Arizona Criminal Justice Commission has informed grantees to expect a 60% cut due to issues related to their state funding sources. Emerge expects a \$38,000 loss in funding for shelter services as a result. We also anticipate potential losses stemming from the Victim of Crimes Act due to reductions in federal funding sources. Moreover, the COVID-19 pandemic has taken a financial toll on Emerge, like it has on so many other organizations and businesses. At Emerge, cost increases related to COVID-19 and loss of funding in the next fiscal year due to funders and individual donors diverting money to COVID-19 response.

5. Define the geographical area to be served with requested FEMA EFSP CARES funds.

Our emergency shelter is located in Tucson, Arizona and we serve all of Pima County.

6. Briefly describe the target population for each service for which you are requesting FEMA EFSP CARES funds.

The target population served by our emergency shelter is made up of victims of domestic violence who are at high risk of serious injury or death from an intimate partner. We provide 24-hour access to safe shelter and a continuum of services to help this population heal from their trauma. The vast majority of people we serve in shelter are women and their children. A small number of male victims receive shelter services annually via our hotel program. While we serve people of all income levels, nearly all of our emergency shelter program participants have no income or income below the federal poverty level.

7. Please discuss how your program collaborates with other local pandemic response efforts.

We are working closely with the Pima County Health Department and implementing protective measures to prevent the spread of the virus. Emerge is an active, voting member of Tucson Pima Collaboration to End Homelessness (TPCH). Because DV is a leading cause of homelessness for women and their children, we work closely with local organizations that focus solely on addressing homelessness. For instance, homelessness service providers often have clients who need some level of services from Emerge because of coexisting experiences with domestic abuse. We also frequently work with our homeless assistance partners to meet the housing needs of the DV victims we serve.
