

### Curriculum Review Team

This year, we have updated and revised both our English and Math curricula so that they better align with the Arizona College and Career Readiness standards. The revised curricula includes curriculum maps for each course, complete daily lesson plans, including measurable objectives and student activities to master the objectives, and assessments throughout the lesson.

We would greatly appreciate your participation in reviewing both curricula to offer suggestions for improvement or add general comments. The review team will meet for 1 hour on April 25<sup>th</sup> at our Ina campus at 5025 W. Ina Road, in the Vocational building at 11AM. Light refreshments will be provided.
