

# JOE CASEY

Math Teacher, XX Years of Experience

I came to PVHS as a 1-day math substitute. That was in October, 2015. I've stayed because all of the teachers and staff have the same commitment – the success of our students.

Many of our students are close to the edge. Many are burdened by responsibilities at home and work that a 16-year-old shouldn't have to carry.

They want to succeed. It's easy to say, "I'll help you."
