

## COVID 19-Update-Summer Youth Employment Program 2021

Out of an abundance of caution for the safety and well-being of our young people, providers and worksites Pima County Community and Workforce Development has made the very difficult decision not to operate the Summer Youth Employment Program this year.

Unfortunately, due to the uncertainty of how COVID 19 will continue to effect social distancing guidelines, worksite availability, and provider and site staffing as we head into summer makes it difficult to ensure that SYEP can be operated safely and efficiently.

Please know that we considered many ways to keep this year's summer youth employment program operational but concluded it was not possible to operate the program when the health and safety of our participants and employers are concerned.

We look forward to continue to offer youth employment and educational services. Please know Pima County Youth Center is open and ready to assist with employment, training and educational services
