MEMORANDUM

Date: April 9, 2018

To: The Honorable Ally Miller, Member
Pima County Board of Supervisors

From: C.H. Huckelberry
County Administrator

Re: 10-Year Library Capital Plan

Based on the attached emails, I understand you requested a copy of what has been planned for Library infrastructure investments for the next 10 years. Attached is a draft plan that has not been reviewed by management nor myself. Hence, in its final form, the plan may look entirely different from what it is today.

With the understanding that the draft plan is simply desired capital improvements without the benefit of fiscal analysis or change of future community conditions such as demographics and population growth, the draft should not be relied on or used for any purpose.

As you can see, our Library Director did not “refuse” to provide the information requested, she indicated I would provide them. April 6, 2018 was the date my office was made aware of the request. You may wish to direct your inquiries to my office for appropriate response in the future.

Amber:
Supervisor Miller is aware the plan may be in draft status; however, she would like to have a copy of the draft plan by close of business this Friday, April 6, 2018. No copies will be disseminated. If you have any questions, please let me know. We look forward to receiving the copy no later than this Friday. Thank you.

JoAnn –
I hope your week is going well,

We are still working on our facilities infrastructure plan so it is not yet ready for distribution. Once it has been finished and approved by county administration we will definitely share it with your office.

Best,

~Amber

Amber:
Could you please forward a copy of your 10 year planned library expansion (build-out/construction) schedule (by District)? If you have a plan that extends beyond 10 years, please also forward a copy of that document. If you have any questions, please let me know. Thanks.

Who are they?
The Pima County Public Library (Library) operates a Main Library; 25 branch libraries; a bookmobile; three (3) Book Bikes; and online services, including a dynamic web portal, downloadable e-books, audiobooks, video, and music. The Library provides educational opportunities for workforce development, supporting employers and citizens at all ages, and offers child-centered, engaging environments addressing the social, emotional, and cognitive aspects of learning. Other special services include connected learning environments for youth and Career Online High School, which provides adults with the opportunity to gain a high school diploma and valuable work skills. Community groups use library facilities to hold meetings of civic and educational interest, and these facilities are gathering places where people interact, share information, and engage in creating content through 21st century skills. The Pima County Library is authorized by ARS §11-901.

What do they do?
The Library is funded by a secondary property tax at the will of the taxpayers and the Pima County Board of Supervisors. Although un-mandated, public libraries exist in most communities to provide equitable access to information, including government documents. Libraries bridge the digital divide for those who otherwise would not be able to connect to the Internet and they provide space for communities to gather and interact. Legislation, codes, and ordinances related to public libraries focus on access, privacy, taxation, and zoning.

Brief description of prioritization criteria
- Safety/Risk Avoidance (20 points). Required mitigation of potential hazards related to facilities.
- Economic Development/Regional Needs/Public expectation (20 points). Rehabilitation or construction of facilities to address community need.
- Level of Service/Capacity Needs (20 points). Rehabilitation or construction of facilities to address organizational ability to meet community need.
- Depreciation/Life Cycle/Age of Facility (20 points). Rehabilitation necessary to maintain and preserve facilities.
- Maximize Previous Investment/Feasibility (10 points). Financial considerations applied to rehabilitation or construction of facilities.
- Demographics/Changing Public Needs (10 points). Rehabilitation of facilities to add or expand services.

Current Infrastructure
- Joel D. Valdez Main Library and 25 library branches
- One bookmobile and 3 book bikes
- 1.2 million cataloged items
- 1,200 public computers
- 5.4 million visitors annually
