Re: **Library Curbside Service, Food Distribution and Computer Sites**

Please see the attached map and memorandum from the Library Director that indicates the locations for computer services, curbside book service and food distribution services.

These locations have been correlated with low-income census track data. As you can see, our library system is attempting to provide services to those who have the highest level of socio-economic disadvantage.

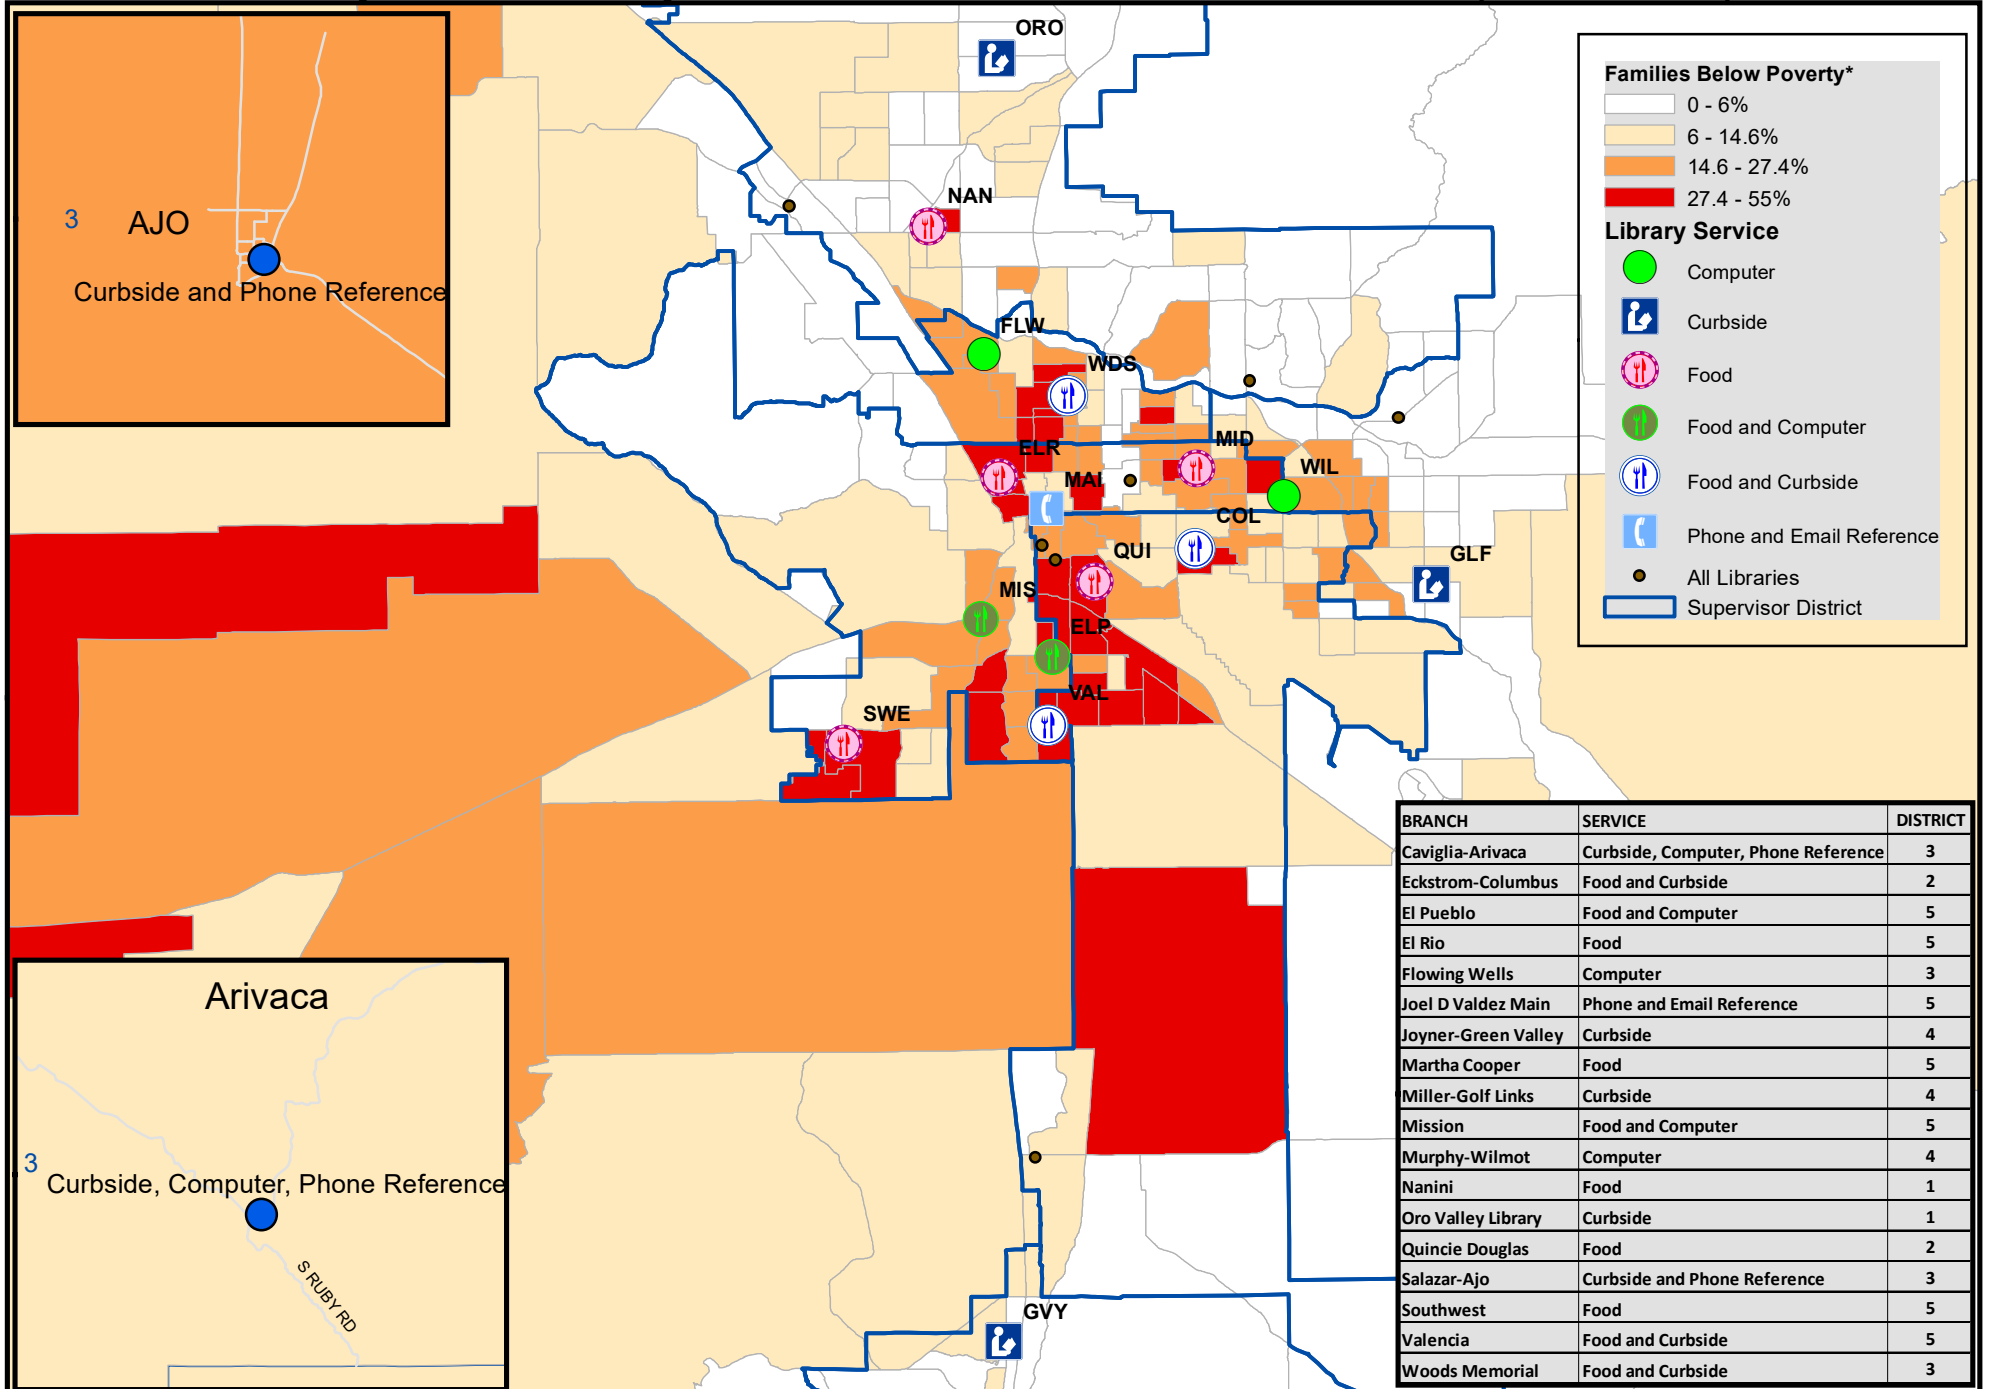

Please contact me if you have any questions regarding this proposed program that we intend to implement in the future.
