Re: **Monitoring of Jail Population Post Lifting of the Governor's Eviction Moratorium**

I would appreciate staff developing appropriate protocols to monitor the Jail population, particularly as it relates to any increases that would result or be influenced by the expiration of the Governor's Executive Order barring evictions related to COVID-19 actions.

I believe there is a substantial number of evictions that are backlogged and are scheduled to occur later this month if the Governor's moratorium on evictions is not continued.

It would be appropriate to monitor the number of evictions that occur through our Housing First Coordinator and to work closely with the appropriate Courts to determine the number of evictions that occur. It would also be appropriate to know whether any of these evictions result in any type of law enforcement activity that may result in an individual being confined in the Pima County Adult Detention Center. Finally, please advise Pretrial Services and law enforcement of this monitoring to ensure the data can be collected.
