

MEMORANDUM

Date: June 30, 2020

To: The Honorable Chairman and Members
Pima County Board of Supervisors

From: C.H. Huckelberry
County Administrator *CHH*

Re: **COVID-19 Cases and Deaths by Morbidity and Mortality Week Report**

The Epidemiology staff in the Health Department have broken out the epidemiology infection and death curves of COVID-19 for each incorporated jurisdiction, including the unincorporated area of Pima County.

As always, the last reported week is substantially adjusted in the following week. In the past, these adjustments have produced an increasing number of cases and deaths.

This data can also be reported in infections per 10,000 residents. This information is reported at the State level for the entire County as infections per 100,000. Our infections per 100,000 resident indicates Pima County would rank 9th highest in infection rate.

County	Rate of COVID-19 Cases per 100,000 (as of June 29, 2020)
Apache County	3,215.5
Cochise County	443.4
Coconino County	1,256.2
Gila County	491.3
Graham County	239.1
La Paz County	1,503.3
Maricopa County	1,034.3
Mohave County	473.8
Navajo County	3,164.2
Pima County	724.4
Pinal County	743
Santa Cruz County	3,229.8
Yavapai County	324.9
Yuma County	2,557.9
