

MEMORANDUM

Date: April 1, 2021

To: The Honorable Chair and Members
Pima County Board of Supervisors

From: C.H. Huckelberry
County Administrator 

Re: **Monthly Vaccination Process**

The table below shows the vaccinations administered by Pima County regional vaccination centers and mobile clinics by month.

Month	Pima County PODs
January	57,289
February	123,420
March	184,404

With the federal point of distribution (POD) coming online mid-April, vaccination of the general populous should greatly accelerate, surpassing the April vaccination goal of 250,000 vaccines.

We have the potential of doubling the previous April forecast if 336,000 federal doses are added to those being made available to the County by the Arizona Department of Health Services. It is likely we will exceed 500,000 doses in April.

The University of Arizona State POD is now providing over 4,000 vaccinations per day and the total number of vaccinations given in Pima County is nearing 8,000 per day.

CHH/anc
