**Subject:** FEMA- State Agreement

Team, after much consideration, and our best efforts, we were unable to find a fair and workable solution related to the FEMA-State agreement. Therefore, DEMA, on behalf of the State, will not sign the agreement. It is my understanding that Pima County is already working on a "Plan B" DEMA will support and pass along all resource requests that come to our agency.

Finally, I have included several others on this email from our internal DEMA staff, liaison with the Governors Office, and our local FEMA team for situational update. Our local FEMA team will remain instrumental in the resource request process moving forward.
