Re: **COVID-19 Vaccinations for Assisted Living Facilities**

At the last meeting of the Board on February 16, 2021, a question was asked regarding those non-federally enrolled assisted living facilities and whether they had received vaccinations. From the information we have to date, there are 62 small assisted living facilities that were not enrolled in the federal vaccination program. Of those facilities, 34 facilities have been engaged by our public health agency. A total of 578 patients and/or staff have been vaccinated.

This data indicates that approximately 50 percent of those orphaned assisted living facilities have been vaccinated by our County public health agency. We will continue to work on the balance until all have been appropriately vaccinated both for patients and staff.
