

MEMORANDUM

Date: March 4, 2022

To: The Honorable Chair and Members
Pima County Board of Supervisors

From: Jan Leshner 
Acting County Administrator

Re: **Update on Proposed Vote Centers Information Requests**

This is one of many updates that will be provided to the Board of Supervisors on the identification of Vote Centers as the process progresses. There have been several requests by members of the Board for information on vote center locations, total numbers by Districts, and criteria for identification of these locations.

Attached please find a map showing proposed Vote Center locations. Currently, there are a total of 129 Vote Centers proposed throughout Pima County. The number of Vote Centers per Supervisorial District is also included on the map, as well as the criteria used to identify locations. It should be noted that for rural areas, their historical polling places were kept and identified as Vote Centers

As noted in the February 28, 2022 Memorandum to the Board, letters to cities, towns, unincorporated communities, elected officials, political parties and community organizations continue to be mailed out for input on the proposed vote center locations. The County Vote Center webpage will also provide a link for public input.

Additionally, the Board of Supervisor redistricting effort is fully underway, with the Redistricting Advisory Committee continuing to meet. Redistricting is required to balance population deviations greater than 10 percent between Districts. Currently, there is a 15 percent difference between the highest (District 4) and the lowest (District 5) populated Districts. When the District lines are redrawn, some Vote Centers will likely end up in different Districts.
