400 Taladro Street  
Ajo, Arizona 85321

**Re: County Budget for Fiscal Year 2015/16 Adopted June 16, 2015**

Dear Ms. Allen:

We have previously communicated with your organization regarding the County budget and the tax impacts that could arise from the budget for a variety of reasons – one of which is significant State cost transfers. These cost transfers are now real and significantly impact Pima County.

The Governor and the Arizona Legislature balanced the State's Fiscal Year (FY) 2015/16 budget by transferring significant costs to our educational institutions, cities and especially the counties in Arizona. Unfortunately, Pima County received the largest cost transfers. At this time, these transfers total nearly \$21 million annually and are two to five times the State cost transfers being incurred by the other 15 counties in Arizona. Maricopa County, with a population four times ours, was impacted by shifts equal to only 50 percent of what the Governor and the State Legislature want to extract from Pima County taxpayers. Based on per capita impact, the cost transfers cost Pima County taxpayers seven times what they cost a Maricopa County taxpayer. Today, with previous State transfers, we send over \$104 million of local property taxes to the State for their use. This is one third of our primary property taxes (see attached).

We have absorbed a significant portion of these State cost shifts by reducing all County agency and department expenditures by two percent. We have paid for the balance of State cost transfers with a conditional property tax increase of 11 cents in our primary

Ms. Allen

property tax rate, or \$8.4 million. This will cost the average taxpayer approximately \$17 per year.

We have challenged the legality of a significant portion of the State cost transfers. If a court agrees with our position, the conditional property tax increase will be reversed. This action was filed with the Arizona Supreme Court on June 8, 2015. The Supreme Court may agree to hear the matter or decline to do so. If the Court declines, the matter will be filed in Superior Court.

It is unfortunate the County has been placed in the position of either raising taxes or cutting vital County programs; particularly in justice and law enforcement, due to the State's inability to balance their own budget without transferring cost to local governments, including Pima County. Transferring State costs to the County is just another way of raising State revenues without directly imposing a State tax.

The State's actions do not bode well for needed investment in our community to make our region more competitive for economic expansion. Today, due to these cost shifts, we are less economically competitive and are at a disadvantage when competing with other states for new jobs in a modern economy.

Sincerely,

C.H. Huckelberry  
County Administrator

## State Budget Cost Transfers to Pima County

In Fiscal Year (FY) 2014/15, the State of Arizona transferred over \$82.8 million of costs to Pima County's General Fund:

### FY 2014/15 State Cost Transfers and Cost to Pima County

Arizona Healthcare Cost Containment System	\$17.5 million
Arizona Long Term Care System	\$39.7 million
Behavioral Health System	\$3.1 million
Restoration to Competency – Arizona State Hospital	\$2.0 million
Sexually Violent Persons	\$1.2 million
Superior Court/Juvenile Court Salary and Benefits	\$17.3 million
Justice Courts – Justices of the Peace Salary and Benefits	\$1.2 million
Constables – Salary and Benefits	\$847,000
<b>Total FY 2014/15 Budgeted State Cost Shifts</b>	<b>\$82.8 million</b>

The Governor and State Legislature balanced the State's FY 2015/16 budget, in part, by transferring \$21.4 million of State Budget costs to Pima County. The State increased these cost transfers to Pima County by more than any other county in the State of Arizona.

### New FY 2015/16 State Cost Transfers to Pima County

State Juvenile Corrections	\$1.8 million
Restoration of ALTCS Dental	\$141,000
Arizona Department of Revenue Operating Cost	\$1.0 million
"Additional State Aid for Education"	\$8.1 to \$17.6 million
2016 Presidential Preference Election (net)	\$1.1 million
<b>Total New FY 2015/16 Budgeted State Cost Shifts</b>	<b>Up to \$21.6 million</b>

When these new increased State budget cost transfers are added to last year's transfers, the total is \$104.4 million for FY 2015/16, or nearly one-third of the existing FY 2014/15 primary property tax rate of \$4.2779. **Clearly, Pima County is subsidizing the State.**
