

MEMORANDUM

Date: March 4, 2015

To: The Honorable Chair and Members
Pima County Board of Supervisors

From: C.H. Huckelberry
County Administrator 

Re: **Issues Related to Homeless Protest and Encampment on City of Tucson Right of Way Adjacent to the County Superior Court and Administration Buildings**

Past and Present Homeless Assistance Programs

Outside Agency Program and Grant Funding. The County's Community Development and Neighborhood Conservation Department (CDNC) administers federal grants from the US Department of Housing and Urban Development (HUD), including Community Development and Block Grants (CDBGs) and Emergency Solutions Grants (ESGs), both of which provide funding to nonprofit organizations that provide homeless and homeless prevention services. CDNC also administers the County Outside Agency (OA) program, which utilizes General Funds for six separate OA Service Categories, including homeless and homeless prevention services.

Each agency that receives funds is contractually required to provide quarterly reports to CDNC detailing the number of units and outcomes for the target population served. These reports are then compiled into two separate annual reports that are submitted to the County Administrator and the Board of Supervisors. HUD requires that federally funded programs capture specific information in the Consolidated Annual Performance and Evaluation Reporting (CAPER) (24 CFR 91.520). The purpose of CAPER is to measure Pima County's success in meeting priority needs, goals and strategies as outlined in the 2010-2015 City of Tucson and Pima County Consortium Consolidated Plan; in addition to, use of federal HUD entitlement funding, including the CDBGs and ESGs. The HUD Annual Action Plan is approved by the Board of Supervisors each year in May, as is the HUD CAPER, which is submitted to HUD each year in October. Reports for the last seven years can be found on the CDNC website at:

<http://webcms.pima.gov/cms/one.aspx?portalId=169&pageId=12301>

A summary of OA funding, General Funds and HUD grants for the current and six past fiscal years, is Attachment 1 to this memorandum.

The OA Program provides an annual report that is reviewed and approved by the OA Committee and then sent to the County Administrator and the Board of Supervisors in October. This report captures specific information related to funding by OA Service

The Honorable Chair and Members, Pima County Board of Supervisors
Re: **Issues Related to Homeless Protest and Encampment on City of Tucson Right of Way
Adjacent to the County Superior Court and Administration Buildings**

March 4, 2015

Page 2

Categories, including expenditures, demographics, outputs and outcomes. The purpose of this report is to measure success in meeting the priority needs as identified by the OA Committee. Reports for the last seven years can be found on the CNC website at:

<http://webcms.pima.gov/cms/one.aspx?portalId=169&pageId=12301>

A list of all Fiscal Year (FY) 2014/15 grant funding that has been allocated to nonprofit organizations, both HUD funds and County General Funds for the provision of homeless and homeless prevention services, is Attachment 2 to this memorandum. This attachment includes the specific agencies, target population, projected number served and the award amount. As can be seen, the County has been actively assisting homeless individuals in the past and active in programs designed to prevent homelessness. A combination of State and Federal funds used for this purpose totals nearly \$1.6 million for FY 2014/15; a substantial commitment.

County Bond Funding for Affordable Housing and Neighborhood Reinvestment. The County has made considerable bond-funded capital investments in the area of affordable housing and neighborhood reinvestment. In total, over \$40 million in bond funds has been spent for this purpose, \$15 million of which was dedicated to improving and expanding affordable housing opportunities. One success measure for the County's Affordable Housing bond program is the total amount of private and public funding leveraged to develop affordable housing opportunities. As of December 2013, the County's \$15 million investment has leveraged over \$141 million in other private and public grants and financing resources. This equates to nearly \$10 in funding for each \$1 of County bond funding. When the affordable housing bond program funded by the voters in 1997 and 2004 is complete, a total of 884 units – including single family homeownership units and multi-family rental/ leased units – will be complete.

At this time, another \$30 to \$45 million in funding for affordable housing and neighborhood reinvestment is being recommended to the Board by the Bond Advisory Committee for a future bond authorization request. Continued impasse on the present issue, given our past bond investments, cannot be viewed as positive in gaining future voter support for such programs.

The Face of Homelessness in Pima County

Overall, the residents of the encampment are not representative of Pima County's homeless. In our community, women make up nearly 37 percent of the homeless population, while minors constitute about 20 percent. In many cases, these individuals are homeless as a result of domestic violence situations or aging out of the foster care system. The vast majority of homeless (81 percent) in Pima County are in emergency or transitional housing settings provided by various nonprofit partners across the community. Less than 20 percent

The Honorable Chair and Members, Pima County Board of Supervisors
Re: **Issues Related to Homeless Protest and Encampment on City of Tucson Right of Way
Adjacent to the County Superior Court and Administration Buildings**

March 4, 2015

Page 3

are living unsheltered in public spaces. Vulnerable and chronically homeless make up 38 percent, and one third of these self-identify as having behavioral health issues.

By contrast, the individuals in the encampment appear to have greater challenges with behavioral and substance abuse issues, chronic disease and chronic homelessness.

Attachment 3 is a report prepared by HUD entitled *Sheltered Homeless Persons in Tucson/Pima County, 10/1/2013 – 9/30/2014*. This report includes numeric data, as well as population characteristic and other demographic data, of the individuals and families that received shelter during the reporting period.

Recent Canvass by Social Service Agencies

The City of Tucson asked for County assistance in trying to provide homeless services to those individuals encamped in tents or boxes along Broadway Boulevard, Congress Street and Church Avenue. Staff from the County's Sullivan Jackson Employment Center participated in this canvass. The canvass was successful in providing assistance to one homeless veteran; however, those individuals adjacent to the County buildings rebuffed offers of assistance. A County staff member from the Sullivan Jackson Employment Center reported that *"...the group in tents in front of the County Admin Building were outspoken in refusing services and any assistance at this time."*

Barriers to successful engagement exist for many reasons, including a lack of personal documentation (state identification or driver's license and associated documents to obtain state identification/driver's license), drug/alcohol abuse (some agencies will not work with those under the influence), a history of previous disciplinary actions at local agencies (barring some from local agencies), conditions at local shelters (theft of belongings by other homeless individuals, noise throughout the night, body odor of other homeless people, unwanted evangelization), and lack of buy-in from the homeless individual.

County Homeless Protocol

The County has had in place for over 15 years a homeless protocol for assisting and relocating homeless encampments on County-owned property – whether the property is located in the unincorporated area or within a municipality. The County, by virtue of and through the Regional Flood Control District, owns and controls a significant amount of property in our river environment, as well as open space, natural resources parks, and even large community parks on the urban fringe. From time to time, these areas become populated with homeless or other individuals.

Two versions of the County's Homeless Encampment Protocol (one for general County staff and one for the Sheriff's Department) are Attachment 4 to this memorandum and require

The Honorable Chair and Members, Pima County Board of Supervisors
**Re: Issues Related to Homeless Protest and Encampment on City of Tucson Right of Way
Adjacent to the County Superior Court and Administration Buildings**

March 4, 2015

Page 4

updating. I have asked that our Health Department be included in this protocol updating process, and I expect the protocol to be updated within the next 30 days.

The protocol is used in removing homeless encampments from County-owned property and involves soliciting broad County departmental response, including environmental health issues; information regarding services available for food, personal hygiene, healthcare, substance abuse treatment, employment and information regarding nonprofit organizations that provide safe, livable shelter.

Public Health Concerns

Dr. Francisco Garcia, our Health Department Director, prepared a February 10, 2015 memorandum regarding public health concerns of the open public access to locations where human waste has routinely been found, including in parks, public rights of way and entrances into County buildings. Dr. Garcia also issued Notices of Violation to the City of Tucson and the County on January 30, 2015 regarding these matters. These notices are Attachments 5A and 5B to this memorandum.

In response to our Notice of Violation, I directed our Facilities Management Director, who oversees our maintenance and cleaning contract with Iss Facility Services, to ensure that human waste, as well as drug paraphernalia, present on County property be immediately removed and the area properly sanitized in accordance with Health Code requirements. Cleanup of human waste on County property has now evolved into a daily task. Representative photographs are included as Attachment 6 to this memorandum.

The most recent Health Department inspection, conducted on February 26, 2015, noted 25 incidents of human waste – primarily fecal matter – on downtown County, City and private properties. A copy of this report is Attachment 7 to this memorandum.

Human waste is also being deposited in the exhaust air vents of the County parking facilities. In order to prevent recurrences of this problem, I have asked our Facilities Management Director to install temporary construction fencing around the air vents so they are not used as toilets.

In addition, to improve security at night, we will be lighting areas around County buildings, as well as illuminating the public area along Congress Street in front of our building.

Downtown Tucson Partnership Activities

In addition to the efforts of the County and City, the Downtown Tucson Partnership (DTP) is expending resources to pick up litter, more frequently empty trash receptacles, and perform cleanup and disinfecting activities. DTP is also coordinating with Park Tucson to enforce

The Honorable Chair and Members, Pima County Board of Supervisors
Re: **Issues Related to Homeless Protest and Encampment on City of Tucson Right of Way
Adjacent to the County Superior Court and Administration Buildings**

March 4, 2015

Page 5

parking regulations in front of the County governmental complex so that parking is available for public access, rather than to facilitate activities of individuals living in the encampment.

Five-foot Sidewalk Clearance Rule is Inadequate for Pedestrian Flow and Safety

The US District Court order requires that sidewalks be unobstructed for a five-foot distance. For access to downtown public buildings, including the high-volume Superior Courts Building, five feet is completely inadequate. Any number of technical guidelines regarding pedestrian capacity in downtown areas can confirm such. Basic sidewalk widths are wider in a downtown area for a reason. Five feet may be adequate in a rural or suburban environment, but not in a high-volume downtown pedestrian area. Ten feet of clearance is more appropriate. In addition, at areas in downtown where traffic and pedestrians queue, such as signaled intersections, clearance should extend to 50 feet on either side of the intersection to provide a safe line of sight for drivers and pedestrians. This will also allow for pedestrian queuing volume at intersections.

Another safety concern and violation relates to address location and access for emergency responders. One of the homeless boxes along Congress Street was recently located such that it was blocking the posted address for the Superior Courts. Should an emergency situation occur in the Superior Courts building, law enforcement and other emergency responders could be delayed by an inability to locate the proper address.

The County will be asking the City of Tucson to request the Court reconsider its order and establish a minimum 10-foot clearance for public access, as well as prohibiting homeless encampments within 50 feet of any intersection and within 100 feet of established transit stops.

Security Concerns Expressed by County Employees and Visitors

There is a major transit stop in front of the County's Administration Building. Regular transit patrons are discouraged from using the shade and rest areas at these transit stops due to use by persons in the homeless encampment. I have received numerous statements of concern from County employees regarding security and their free and open access to the public transit stations located immediately adjacent to the County Court and Administration Buildings. I have asked Government Security Services Coordinator Sergeant James Ogden to coordinate and relay to the Tucson Police Department our concerns regarding the security and safety of our employees.

My office has also received telephone calls from citizens who indicate they will not be visiting downtown nor bringing visitors to the area because of the encampment and the related waste and litter.

The Honorable Chair and Members, Pima County Board of Supervisors

Page 6

Summary

Significant resources are provided by Pima County, as well as the City of Tucson, to prevent homelessness and assist homeless individuals. Most of the individuals in the present downtown encampment in the public rights of way have apparently declined these services. We would hope they would reconsider and accept assistance from the multiple agencies funded for this purpose.

The many individuals in the encampment are, in essence, protestors; and they continue to cause public health and safety concerns. We will continue to work with and support the City of Tucson to resolve the present unacceptable situation.

Data from the Homeless Management Information System

Submitted for the

Department of Housing and Urban Development's

2014 Annual Homeless Assessment Report to Congress

Introduction

This report on sheltered homeless persons is based on local data submitted to the 2014 Annual Homeless Assessment Report (AHAR). The AHAR is a report to the U.S. Congress on the extent and nature of homelessness in America, prepared by the Department of Housing and Urban Development (HUD). It provides nationwide estimates of homelessness, including information about the demographic characteristics of homeless persons, service use patterns, and the capacity to house homeless persons. Once published, the 2014 AHAR will be found on HUD's Homeless Resource Exchange (<http://www.hudhre.info>).

The AHAR Local Report is meant to be a resource for stakeholders in each community to view their data in a variety of user friendly tables and charts. The report is based primarily on Homeless Management Information Systems (HMIS) data about homeless persons who used emergency shelter, transitional housing or permanent supportive housing programs during the 12-month period between Tuesday, October 1, 2013 to Tuesday, September 30, 2014. The data are collected in six categories: Persons in Families in Emergency Shelter, Individuals in Emergency Shelter, Persons in Families in Transitional Housing, Individuals in Transitional Housing, Persons in Families in Permanent Supportive Housing and Individuals in Permanent Supportive Housing

All data are based on unduplicated counts, such that each person is counted only once, regardless of how many different programs the person used. Data on length of stay represent the cumulative length of stay for each person within a particular category.

For communities that have all emergency shelter, transitional housing and permanent supportive housing providers using HMIS, the total counts reflect the numbers that those providers reported for the 12 month reporting period. For communities where not all emergency shelter, transitional housing and permanent supportive housing providers are using HMIS, this report provides estimates of the homeless individuals and persons in families in emergency shelter, transitional housing and permanent supportive housing programs. The estimate is an "extrapolated count" and is based on the assumption that beds located in programs that do not participate in HMIS are occupied at the same rate and with the same amount of overlap as beds located in HMIS-participating programs.

Data were only included in the national AHAR if HMIS participation rates for a particular category exceeded 50 percent of total beds. The extent to which extrapolated data are representative of the entire community depends on the validity of the assumption that non-participating programs are similar to participating programs. Some programs may target specific sub-populations (such as veterans or women), and their inclusion or exclusion may skew the overall values in particular questions. This report does not include or purport to extrapolate about persons that are served by "victim service providers" including rape crisis centers, battered women's shelters, domestic violence transitional housing programs, and other programs whose primary mission is to provide services to victims of domestic violence, dating violence, sexual assault, or stalking. This report also does not include those who were living in places not meant for human habitation, such as on the street, in hotels or motels, or in doubled-up living situations, unless these persons also used emergency shelter or transitional housing.

The report includes the following sections:

The Estimated Homeless Counts during a One-Year Period table shows the total estimated yearly count for each reporting period, extrapolated point-in-time counts, estimated utilization and turnover rates, and estimated counts by household type. Further explanation of the extrapolated counts can be found in the Detailed Derivation of Estimated Homeless Counts table. This table explains the steps used to derive the extrapolated counts and includes both a description and source for where the data comes from. The Year (2014) to Year (2013) Estimated Homeless Counts during a One-Year Period table shows the percentage change of the 2014 community data compared to 2013 community data. Further explanation of the extrapolated counts can be found in the Year (2014) to Year (2013) Detailed Derivation of Estimated Homeless Counts table.

The Demographic Characteristics of Sheltered Homeless Persons table provides the percentage of persons reported in category by gender of adults, gender of children, ethnicity, race, age, persons by household size, veteran status (adults only) and disability status (adults only). Graphs for each category are below the table.

The Prior Living Situation of Persons Using Homeless Residential Services table shows the percentage breakdowns of the prior living situation data in each category. The data is categorized by living arrangement from the night before program entry. Living arrangements are categorized by homeless situations, housing situations, institutional settings, and other settings. This table also shows the percentage of the stability of the previous night's living arrangements and the zip code of last permanent address. Graphs for each category are below the table.

The Length of Stay in Emergency Shelter, Transitional Housing and Permanent Supportive Housing for Families and Individuals table shows the percentage breakdown of length of stay for individuals and families in emergency shelter, transitional housing and permanent supportive housing. In each category an individual percentage is given for a specific length of stay as well as a cumulative percentage that show the individual percentages accruing. A graph comparing the categories is below the table.

¹ Families are defined as any household that includes at least one adult over 18 years old and one child who is younger than 18 years old. All other persons, including those in multi-person households consisting of only adults or only children, are reported as single individuals.

² Other factors, such as nightly counts that far exceeded the reported number of beds in the community, may also have caused data to have been excluded from the AHAR.

4	Number of year-round equivalent beds for not participating in HMIS (i.e., bed capacity for non-participating providers)	SuperNOFA Housing Inventory Chart	0	0	0	101	0	0	Beds
5	Estimated unduplicated number of persons served by providers that do not participate in HMIS	Step 3 x Step 4	0	0	0	1,358	0	0	Persons
	Estimated number of persons served by participating and non-participating Providers. Note that this estimate double								

6	counts people who use participating and non-participating providers. This double count will be eliminated by the overlap adjustment below.	Step 1 + Step 5	734	709	421	4,962	1,737	804	Persons
7	Overlap factor is the square of [(Bed capacity for HMIS non-participating providers)/(Bed capacity for HMIS participating providers)]	(Step 4 ÷ Step 2) x (Step 4 ÷ Step 2)	0.00	0.00	0.00	0.14	0.00	0.00	is overlap factor
8	Number of persons who used more than one HMIS participating provider in the category	HMIS data from providers that participate in HMIS	154	34	32	1,210	192	50	Persons
9	Estimated number of persons in families that used both participating and non-participating providers	Step 7 x Step 8	0	0	0	172	0	0	is overlap (cross-over) adjustment
10	Total estimate of number persons that used either HMIS participating or non-participating Emergency Shelter	Step 6 – Step 9	734	709	421	4,790	1,737	804	Persons

Step	Description	Source	Persons in Families in Emergency Shelters	Persons in Families in Transitional Housing	Persons in Families in Permanent Supportive Housing	Individuals in Emergency Shelters	Individuals in Transitional Housing	Individuals in Permanent Supportive Housing	
11	Extrapolation Factor for non-participating providers: This is the factor applied to calculations that are based only on participating providers. It is used to estimate total number of persons served by participating and non-participating providers.	Step 10 ÷ Step 1	1.0000	1.0000	1.0000	1.3292	1.0000	1.0000	is the extrapolation factor for non-participating providers.
12	HMIS bed coverage rate	Step 2 ÷ (Step 2 + Step 4)	100%	100%	100%	73%	100%	100%	% of beds participating in the HMIS
13	Point-In-Time Extrapolation Factor. This is the factor applied to calculations that are based only on participating providers. It is used to estimate total number of persons served by participating and non-participating providers for values that report Point-in-time numbers. In contrast to the standard "Extrapolation Factor," the point-in-time Extrapolation fact does not include an adjustment for	Step 6 ÷ Step 1	1.0000	1.0000	1.0000	1.3769	1.0000	1.0000	is the extrapolation factor for point-in-time counts.

persons using
multiple
providers.

¹ This reports provides estimates of the homeless individuals and persons in families in Emergency Shelter and transitional housing programs that participate in HMIS, as well as those that do not participate in HMIS. The estimate is an “extrapolated count” and is based on the assumption that beds located in programs that do not participate in HMIS are occupied at the same rate as beds located in HMIS-participating programs. The complete derivation of the total extrapolation factors is detailed in the next table.

Adding values across categories will double count persons who appeared in multiple types of programs.

The estimates do not include persons that are served by "victim service providers," including rape crisis centers, battered women's shelters, domestic violence transitional housing programs, and other programs whose primary mission is to provide services to victims of domestic violence, dating violence, sexual assault, or stalking.

² These results are generated by multiplying the HMIS data by the Extrapolation Factor (Step 11, in table 2.)

³ These values are generated by multiplying the HMIS data by the Point-In-Time Extrapolation Factor (Step 13, in table 2.)

⁴ These results are generated by multiplying the HMIS data by the Extrapolation Factor (Step 11, in table 2.)

⁵ These values are generated by multiplying the HMIS data by the Point-In-Time Extrapolation Factor (Step 13, in table 2.)

⁶ These results are generated by dividing the HMIS data on persons on an average night by the total beds in HMIS.

⁷ These results represent the average number of people who use each bed. It is generated by dividing the unduplicated count of persons recorded in HMIS, by the total number of beds in HMIS

⁸ These results are generated by multiplying the HMIS data by the Extrapolation Factor (Step 11, in table 2).

* This value is generated by multiplying the sum of the extrpolated number of persons in each category by an overlap factor, which accounts for persons who use multiple categories. This value is based on the overlap rates among participating programs and adjusted to account for possible overlap in non-participating providers. In this site the adjustment factor is: For the PIT. These values are generated by adding the point in time counts across categories. It is assumed that persons do not appear in multiple programs on the same night.

PIMA COUNTY HOMELESS ENCAMPMENT PROTOCOL

The Homeless Encampment Protocol is initiated when surveillance discovers homeless people camping on public or private properties or a constituent/citizen complaint is received by a Pima County agency. Homeless camps can pose a threat to public health, safety and the environment and foster criminal activity. The protocol may also be initiated when a homeless camp is established in a public waterway and poses a threat to the safety of the occupants of the camp.

INITIATION OF PROTOCOL

1. Complaint received and/or congregate unit of people is identified. Usually it will be the Pima County Sheriff's Department (PCSD) or Pima County Department of Environmental Quality (PDEQ) who receive the complaint, or identify the camp through surveillance.
2. Homeless camp complaints concerning only the existence of the encampment and/or any criminal activity received by PDEQ will be referred to PCSD.
3. Homeless camp complaints relating to environmental concerns i.e. solid waste or sewage received by PCSD will be referred to PDEQ for investigation.
4. The PCSD or PDEQ will identify property location and ownership (public or private property).
5. The PCSD or PDEQ may refer a complaint to Pima County Community Development and Neighborhood Conservation Department (CDNCD) to arrange an outreach meeting at the homeless camp prior to taking remedial action.
6. CDNC will notify the Jackson Employment Center (JEC) who will deploy the appropriate Outreach Team to facilitate the homeless assistance program.
7. The JEC Outreach Team will make contact with the homeless group or individual, and inform them of community resources available to assist them with immediate and/or long-term needs. A member of the PCSD will accompany all Outreach Teams, as requested by the Jackson Employment Center.
8. Following any outreach, a member of the PCSD will notify the congregate group/individuals of a time frame to vacate the property or face enforcement action. Specific time frames will be determined, based on whether the property is publicly or privately owned.
9. If the congregate group/individuals fail to vacate public property within the given time frame, the PCSD will take appropriate action to physically remove the individuals from the encampment.
10. Once the homeless have been removed from the camp, PCSD will contact PDEQ to facilitate remediation of the affected property.

PROPERTY REMEDIATION

- Once public property is vacated, remedial efforts will be initiated.
- Remediation of the vacated property must be accomplished in a short time frame to discourage a return of homeless individuals to the property.

- PCSD will contact the PDEQ (Enforcement Manager, 243-7400) to have staff inspect the site, determine property ownership, and take the required action to facilitate remediation of the property.
- PDEQ may issue either an intergovernmental referral (if publicly owned property is not county owned) or a Notice of Violation (NOV) to the private property owner for remediation to be scheduled.
- PDEQ will work with county departments that own the affected parcel to facilitate remediation and the posting of “No Trespassing” signage at the encampment location to prevent the return of the homeless and assist PCSD with the enforcement of State trespassing statutes.

PDEQ REPORT

- All complaints received by PDEQ from the following entities will be contacted by the department and advised of the outcome of their complaint:
 1. County Administrator’s Office
 2. Affected Board of Supervisor’s Office
 3. Constituent/Citizen complainant
 4. PCCDNC (Allen Kulwin, 243-6754)

ADDITIONAL RESOURCES

These resources address homelessness in the urban areas of the County and may be of interest to Pima County personnel who make first contact with homeless people.

La Frontera’s Safe Haven – is a low demand facility for people with mental illness and active substance abuse that have repeatedly rejected conventional services for people in crisis or are homeless. In order to access the services of the Safe Haven facility, referrals into the facility must be made by the La Frontera R.A.P.P. Team.

The Tucson Planning Council for the Homeless - “Guidelines on Getting Out” – This is a 16-page pamphlet geared to help ex-offenders plan for their release rather than being discharged to the streets. “Guidelines” lists 22 homeless-serving agencies and programs in Tucson in a chart format that indicates their program types, client profile, entry fee or rent, drug/alcohol status, and other details. It also contains some useful phone numbers, some tips on how to use the handbook, a sample letter to write to agencies before release, as well as some words of encouragement. “Guidelines on Getting Out” is distributed by the Arizona Department of Corrections throughout Arizona. The Tucson Planning Council for the Homeless is also distributing the pamphlet to jails, parole and probation departments, mental health units, and also sending them individually to inmates upon request.

“Need Help” pocket guide – This small sized brochure is published twice per year by the Tucson Planning Council for the Homeless, 882-5500. Resources listed in the pocket guide include: shelters, showers, food, health care, DES services and employment assistance. Also include is a map of Tucson.

PIMA COUNTY HOMELESS ENCAMPMENT PROTOCOL

Original protocol approved: June 5, 2003

Last revision: November 5, 2009

INITIATION OF PROTOCOL

- I. Complaint received and/or congregate unit of people is identified. Usually it will be the Pima County Sheriff's Department (PCSD) or Pima County Department of Environmental Quality (PDEQ) who receive the complaint, or identify the camp through surveillance.
 - A. Homeless camp complaints concerning only the existence of the encampment and/or any criminal activity received by PDEQ will be referred to PCSD.
 - B. Homeless camp complaints relating to environmental concerns i.e. solid waste or sewage received by PCSD will be referred to PDEQ for investigation.
 - C. The PCSD or PDEQ will identify property location and ownership (public or private property).
 - D. The PCSD or PDEQ may refer a complaint to Pima County Community Development and Neighborhood Conservation Department (CDNCD) to arrange an outreach meeting at the homeless camp prior to taking remedial action.
 - E. CDNC will notify the Jackson Employment Center (JEC) who will deploy the appropriate Outreach Team to facilitate the homeless assistance program.
 - F. The JEC Outreach Team will make contact with the homeless group or individual, and inform them of community resources available to assist them with immediate and/or long-term needs. A member of the PCSD will accompany all Outreach Teams, as requested by the Jackson Employment Center.
 - G. Following any outreach, a member of the PCSD will notify the congregate group/individuals of a time frame to vacate the property or face enforcement action. Specific time frames will be determined, based on whether the property is publicly or privately owned.
 - H. If the congregate group/individuals fail to vacate public property within the given time frame, the PCSD will take appropriate action to physically remove the individuals from the encampment.
 - I. Once the homeless have been removed from the camp, PCSD will contact PDEQ to facilitate remediation of the affected property.

PROPERTY REMEDIATION

- II. Once public property is vacated, remedial efforts will be initiated.
 - A. Remediation of the vacated property must be accomplished in a short time frame to discourage a return of homeless individuals to the property.
 - B. PCSD will contact the PDEQ (Enforcement Manager, 740-3340) to have staff inspect the site, determine property ownership, and take the required action to facilitate remediation of the property.
 - C. PDEQ may issue either an intergovernmental referral (if publicly owned property is not county owned) or a Notice of Violation (NOV) to the private property owner for remediation to be scheduled.
 - D. PDEQ will work with county departments that own the affected parcel to facilitate remediation and the posting of “No Trespassing” signage at the encampment location to prevent the return of the homeless and assist PCSD with the enforcement of State trespassing statutes.

PDEQ REPORT

- I. All complaints received by PDEQ from the following entities will be contacted by the department and advised of the outcome of their complaint:
 - E. County Administrator’s Office
 - F. Affected Board of Supervisor’s Office
 - G. Constituent/Citizen complainant
 - H. PCCDNC (Allen Kulwin, 243-6754)

ADDITIONAL RESOURCES

- I. These resources address homelessness in the urban areas of the county and may be of interest to Pima County personnel who make first contact with homeless people.
 - A. **La Frontera’s Safe Haven** – is a low demand facility for people with mental illness and active substance abuse that have repeatedly rejected conventional services for people in crisis or are homeless. In order to access the services of the Safe Haven facility, referrals into the facility must be made by the La Frontera R.A.P.P. Team.

- B. **The Tucson Planning Council for the Homeless - “Guidelines on Getting Out”** – This is a 16-page pamphlet geared to help ex-offenders plan for their release rather than being discharged to the streets. “Guidelines” lists 22 homeless-serving agencies and programs in Tucson in a chart format that indicates their program types, client profile, entry fee or rent, drug/alcohol status, and other details. It also contains some useful phone numbers, some tips on how to use the handbook, a sample letter to write to agencies before release, as well as some words of encouragement. “Guidelines on Getting Out” is distributed by the Arizona Department of Corrections throughout Arizona. The Tucson Planning Council for the Homeless is also distributing the pamphlet to jails, parole and probation departments, mental health units, and also sending them individually to inmates upon request.
- C. **“Need Help”** pocket guide – This small sized brochure is published twice per year by the Tucson Planning Council for the Homeless, 882-5500. Resources listed in the pocket guide include: shelters, showers, food, health care, DES services and employment assistance. Also include is a map of Tucson.

Re: El Presidio Downtown Patrol

The team conducted a routine patrol on February 26, 2015 the following is the findings of the team;

- 1) La Placita parking garage; the entrance off Ocha Street has a gate with an opening that allows people to walk into the garage, in the entrance area there is human urine and fecal matter. This property belongs to the City of Tucson
- 2) On the southwest side of Stone and Ocha Street, at the end of St. Augustine Cathedral is a gate where fecal matter was found. This is City of Tucson property.
- 3) The eastside of La Placita Village parking garage in between Ocha Street and Jackson St just east of Stone there is a large Sign for La Placita, in this area is vegetation where human fecal matter was found.
- 4) Just off the corner of Stone and Jackson Street there is human fecal matter.
- 5) Cope Community Service 82 N. Stone at the south end of the building facing west is a wall into the parking area, behind the wall is human fecal matter.
- 6) At the Southeast corner of the Catholic Diocese behind an electrical transformer is human fecal matter.
- 7) At the south end of the Catholic Diocese about 50-75 feet from Church and Jackson Street located behind the trash containers is human fecal matter.
- 8) At the corner of Broadway and Church behind the street light and in the corner is human fecal matter, this is the 2nd time this area is being noted.
- 9) The west end of the Catholic Diocese; north of Jackson Street on Broadway is human fecal matter
- 10) At the end of Ben's Bells 40 W Broadway on the southeast corner approx. one foot behind the palm tree is human fecal matter.
