**Arizona State Land Auction of 290 Acres of State Trust Land along the Santa Cruz River
Around the County Green Valley Wastewater Reclamation Facility**

Background

In December 2012, Pima County submitted an application to the Arizona State Land Department (ASLD) to purchase at auction close to 300 acres of State Trust land along the Santa Cruz River adjacent to the County's Green Valley Wastewater Reclamation Facility (GVWRF). The acquisition of this property would achieve multiple County goals: 1) provide a statutorily required 1,000-foot buffer around the County's reclamation facility, 2) contribute to acquisition of open space along the Santa Cruz River as identified by the County's 2004 Conservation Acquisition Bond Program, 3) provide a location for the historic Anza Trail and possible trailhead along the west bank of the river, and 4) give the County flexibility for any future recharge of County effluent from the treatment facility.

As part of any future expansion at the GVWRF, additional setbacks will be required from the process equipment to the nearest property line per Arizona Administrative Code R18-9-B201 (I). The setback requirement is 1,000-feet to mitigate potential noise and odors that may be generated at the facility. This acquisition will meet the regulatory requirements as part of any future reclamation facility expansion, allowing the communities of Green Valley and Sahuarita to grow with affordable sewer service provided by the County. The historic Anza Trail will be located along the Santa Cruz River, while a portion of the eastern parcel will be set aside for possible future construction of effluent recharge basins. The acquisition will be funded by Regional Wastewater Reclamation Department (RWRD) obligations to be repaid by sewer user fees.

State Land Auction

It is the County's intent to purchase up to the 1,000-foot buffer from the treatment facility on the west side and the entire eastern portion of the Santa Cruz River up to the section line. However, Community Water Company of Green Valley (CWC) had submitted a lease application for the northeastern portion of the section for a water recharge project, including a right of way along the northern edge of the section. Due to this prior application, ASLD asked the County to remove the portions already identified by CWC; hence, the current configuration of the proposed property acquisition (see attached map).

The due diligence for this purchase has been completed and ASLD appraised the 290-acre property at \$1.1 million (\$3,790/acre). The State Board of Appeals approved the sale at public auction, which is scheduled for July 8, 2014.

Recommendation

I recommend the Board of Supervisors approve the acquisition of the 290 acres of State Trust land at public auction for the buffering of the County's Green Valley Wastewater Reclamation Facility and furtherance of the Anza Trail development and conservation along the Santa Cruz River to be funded with Regional Wastewater Reclamation Department obligations to be repaid by sewer user fees.

Respectfully submitted,
