

MEMORANDUM

Date: May 11, 2015

To: The Honorable Chair and Members
Pima County Board of Supervisors

From: C.H. Huckelberry
County Administrator

Re: **High Strength Sewer User Accounts – Increases in User Fees**

Attached is an April 27, 2015 memorandum from the Regional Wastewater Reclamation Department Director, Jackson Jenkins, transmitting information regarding certain classifications of High Strength User accounts that have been incorrectly charged for their sewage discharges. The incorrect charges were revealed after the Regional Wastewater Reclamation Department completed a fee audit of all High Strength User accounts. Pima County's fee ordinance recognizes the necessity to differentiate between such classes of users whose sewage discharges require that our treatment processes compensate for the strength of their discharge. In general, these higher strength users are restaurants, car washes, and other commercial enterprises.

Letters notifying our customers of the increased expenses in the monthly sewer user fees were mailed on Friday, May 8, 2015 to the 85 customers impacted by this change. As many as 30 of these accounts will experience increases that will more than double their monthly sewer bills. In addition, eight of these accounts will experience monthly fee increases that amount to several hundred dollars. We propose to discuss payment options with such businesses that will lessen the impact of the planned increases. Such options would most likely involve a phase in of the full cost over a three year period.

I am alerting you to the issuance of these notification letters since you most likely will receive inquiries from the affected sewer customers.

CHH/dr

FAX: (520) 724-9635

April 27, 2015

TO: C.H. Huckelberry, County Administrator
THRU: John M. Bernal, Deputy County Administrator – Public Works
FROM: Jackson Jenkins, Director – RWRD 
SUBJECT: High Strength Sewer Users Accounts

As a result of a recent High Strength User Fee Audit, 85 Commercial/High Strength Users were identified as under paying their sewer user fees due to being recorded in the incorrect High Strength User class. Similarly, there were 196 High Strength Users who were over paying their sewer user fees due to the same reason. There are a total of 13,260 Commercial/High Strength User accounts with PCRWRD.

The attached letter Commercial to High Strength (C-HS) attachment A will be sent to the attached list of 43 customers and attachment B, High Strength to High Strength (HS-HS) will be sent to the list of 42 customers notifying them of the impending increase in their sewer user fee and the appropriate corrections will be made to the data base.

Please share this with the Board of Supervisors as appropriate in case there are any inquiries regarding this matter.

RE: Sewer User Fees for «Address»

Dear Sir or Madam:

The Regional Wastewater Reclamation Department has the responsibility of administering an industrial pretreatment program as mandated by the Clean Water Act. One of the tasks associated with this program includes periodically evaluating the concentration of pollutants contained in sewage for the purpose of establishing local limits. An additional task is to evaluate chemical oxygen demand (COD) and total suspended solids (TSS) which serve as surrogates for determining the strength of sewage and are therefore used in establishing sewer fees.

Governing regulations of the United States Environmental Protection Agency (USEPA) have determined "that certain classes of users discharge wastewater that contains higher concentrations of chemical oxygen demand or suspended solids or both when compared to the composite strength of wastewater discharge from all residential users, and that accordingly impose additional costs on the operation and maintenance of the system" (see Pima County Code, Title 13, §13.24.030.D).

During a recent audit of our Commercial and High Strength Sewer Users your account, #«Customer_ID», was identified as being in the incorrect Class Rate. As a result of this discrepancy, your current High Strength Class Rate of \$«Old_Class_Rate» per Hundred Cubic Feet (CCF) for «Old_Class_Description» will be adjusted to the High Strength Class Rate of \$«New_Class_Rate» per CCF for «New_Class_Description». This revised Class Rate properly reflects the average wastewater strength being discharged into the wastewater system for this High Strength user account.

This change will be implemented within your next two billing cycles. The attached excerpt from the Pima County Code 13.24.180 can be referenced to clarify the correction being made. If you feel this change has been made in error or if you have any questions related to your Sewer User account, please contact Melody Burton at (520) 724-6617.

Sincerely,

Jackson Jenkins
 Director, RWRD

RE: Sewer User Fees for «Address»

Dear Sir or Madam:

The Regional Wastewater Reclamation Department has the responsibility of administering an industrial pretreatment program as mandated by the Clean Water Act. One of the tasks associated with this program includes periodically evaluating the concentration of pollutants contained in sewage for the purpose of establishing local limits. An additional task is to evaluate chemical oxygen (COD) and total suspended solids (TSS) which serve as surrogates for determining the strength of sewage, and are therefore, used in establishing sewer fees.

Governing regulations of the United States Environmental Protection Agency (USEPA) have determined "that certain classes of users discharge wastewater that contain higher concentrations of chemical oxygen demand or suspended solids or both when compared to the composite strength of wastewater discharge from all residential users, and that accordingly impose additional costs on the operation and maintenance of the system (see Pima County Code, Title 13 §13.24.030.D).

During a recent audit of our Commercial and High Strength Sewer Users your account, #«Customer_ID», was identified as being in the incorrect Class Rate. As a result of this discrepancy, your current Commercial Class Rate of \$3.52 per Hundred Cubic Feet (CCF) will be adjusted to the High Strength Class Rate of \$«New_Class_Rate» per CCF for «New_Class_Description». This revised Class Rate properly reflects the average wastewater strength being discharged into the wastewater system for this High Strength user class.

This change will be implemented within your next two billing cycles. The attached excerpt from the Pima County Code 13.27.180 can be referenced to clarify the correction being made. If you feel this change has been made in error or if you have any questions related to your Sewer User account, please contact Melody Burton at (520) 724-6617.

Sincerely,

Jackson Jenkins
 Director, RWRD
