Re: **Additional Expense Incurred by the County to Maintain Additional Security and Provide Circulation During Closure of the Congress Street Exit to the County A and B Level Garage Parking**

During construction of the Modern Streetcar and the resulting loss of our exit access to westbound Congress Street, the County was required to maintain security at both the main garage exit off of Pennington Street and at a secondary Pennington Street exit. The additional exit required additional security services by Securitas. The added expense to the County caused by streetcar construction for this additional security was \$18,089.19.

It is unlikely this additional cost incurred by the County accommodate the streetcar construction will be reimbursed by the City of Tucson; however, it is a real cost incurred by the County and is documented by Securitas invoices.
