**Bicyclists** - On a shared-use pathway always slow down when approaching other trail users, give a verbal warning such as "Passing" when you are about to pass, and provide at least 5 feet passing distance. Always yield to oncoming traffic.

**Pedestrians** - Please watch and listen for cyclists and provide space on the path for them to pass safely. Don't suddenly stop or change direction on the path.

**Bicycle bells** are a polite way to alert people to your presence!
