SUPPLEMENTARY INFORMATION:

I. General Information

A. What should I consider as I prepare my comments?

1. *Submitting CBI.* Do not submit this information to the EPA through www.regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in CD that you mail to the EPA, mark the outside of the CD as CBI and then identify electronically within the CD the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. Send or deliver information identified as CBI only to the following address: Roberto Morales, OAQPS Document Control Officer (C404-02), U.S. EPA, Research Triangle Park, NC 27711, Attention Docket ID No. EPA-HQ-OAR-2012-0322.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- Identify the rulemaking by docket number and other identifying information (subject heading, **Federal Register** date, and page number).
- Follow directions—The agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- Describe any assumptions and provide any technical information and/or data that you used.
- If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- Provide specific examples to illustrate your concerns, and suggest alternatives.

- Explain your views as clearly as possible, avoiding the use of profanity or personal threats.
- Make sure to submit your comments by the comment period deadline identified.

B. Where can I get a copy of this document and other related information?

In addition to being available in the docket, an electronic copy of this notice will also be available on the World Wide Web. Following signature, a copy of this notice will be posted on the EPA's Web site, under SSM SIP Call 2013, at www.epa.gov/air/urbanair/sipstatus. In addition to this notice, other relevant documents are located in the docket, including the proposal notice and comments received on the proposed rulemaking so far, including requests for extension of the comment period.

II. Background

The purpose of this notice is to extend the public comment period on the EPA's recently proposed rulemaking titled, "State Implementation Plans: Response to Petition for Rulemaking; Findings of Substantial Inadequacy; and SIP Calls to Amend Provisions Applying to Excess Emissions During Periods of Startup, Shutdown, and Malfunction." The proposal was published in the **Federal Register** on February 22, 2013, with an original deadline of March 25, 2013, for receipt of comments. However, as provided in the proposal, because a public hearing on the proposal was requested and this hearing was held on March 12, 2013, the deadline for receipt of comments was automatically extended to 30 days after the date of the public hearing. Accordingly, the public comment period for the proposal has already been extended to April 11, 2013.

The EPA has received numerous requests to extend the end date of the comment period for the proposed rulemaking beyond April 11, 2013. Those requesting additional time include industry, industry trade associations, and state and local air pollution agencies in potentially affected states. These requestors claim that because the proposal is complex and far-reaching, with unique state-specific issues, they need extra time during which to review existing SIP provisions in light of the proposed actions and to provide meaningful and comprehensive comments on all aspects of the proposal.

The EPA has also received, to date, one request that it not extend the comment period for the proposed rulemaking. This request was from the environmental group that submitted the

petition at issue to the EPA. This requestor opposes requests to extend the comment period by an additional 60 to 90 days, given the seriousness of public health issues at stake and the already extended period of time it will take to address any necessary SIP revisions as a result of the proposed rulemaking, and because the justifications offered for extension of the comment period are not relevant to the specific issues in the rulemaking.

The EPA has carefully evaluated these competing requests regarding the length of the public comment period for the proposed rulemaking. In response to these requests, the EPA by this notice is extending the comment period for an additional 30 days, that is, until May 13, 2013. Accordingly, the EPA notes, commenters thus have a comment period of 80 days from the date the proposed rulemaking was published in the **Federal Register** and 89 days from the date the proposed rulemaking was posted on the EPA's Web site. The EPA believes that this length of comment period is reasonable and appropriate, considering the issues addressed in the proposed rulemaking.
