**Debra K. Davenport**  
Auditor General

The **Auditor General** is appointed by the Joint Legislative Audit Committee, a bipartisan committee composed of five senators and five representatives. Her mission is to provide independent and impartial information and specific recommendations to improve the operations of state and local government entities. To this end, she provides financial audits and accounting services to the State and political subdivisions, investigates possible misuse of public monies, and conducts performance audits of school districts, state agencies, and the programs they administer.

Copies of the Auditor General's reports are free.

**Independent Auditors' Report on Compliance with Requirements  
That Could Have a Direct and Material Effect on Each Major Program and on  
Internal Control over Compliance in Accordance with OMB Circular A-133**

Members of the Arizona State Legislature

The Board of Supervisors of  
Pima County, Arizona

### **Compliance**

We have audited Pima County's compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012. The County's major federal programs are identified in the Summary of Auditors' Results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the County's management. Our responsibility is to express an opinion on the County's compliance based on our audit.

We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County's compliance with those requirements.

As described in items 12-102 and 12-103 in the accompanying Schedule of Findings and Questioned Costs, the County did not comply with requirements regarding reporting that are applicable to its ARRA—Neighborhood Stabilization Program (Recovery Act Funded) and the requirements regarding reporting that are applicable to its ARRA—Energy Efficiency and Conservation Block Grant Program. Compliance with such requirements is necessary, in our opinion, for the County to comply with the requirements applicable to those programs.

In our opinion, except for the noncompliance described in the preceding paragraph, Pima County complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012. The results of our auditing procedures also disclosed other instances of noncompliance with those requirements that are required to be reported in accordance with OMB Circular A-133 and that are described in the accompanying Schedule of Findings and Questioned Costs as items 12-101 and 12-104.

### **Internal Control over Compliance**

The County's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies, or material weaknesses, and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and other deficiencies that we consider to be significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as items 12-101, 12-102, and 12-103 to be material weaknesses.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as item 12-104 to be a significant deficiency.

### **Schedule of Expenditures of Federal Awards**

We have audited the financial statements of the governmental activities, business-type activities, aggregate discretely presented component units, each major fund, and aggregate remaining fund information of Pima County as of and for the year ended June 30, 2012, and have issued our report thereon dated December 18, 2012, that contained an unqualified opinion on those financial statements. Our report was modified to include a reference to our reliance on other auditors. Our audit was conducted for the purpose of forming our opinions on the financial statements that collectively comprise the County's

basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information is the responsibility of the County's management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Pima County's responses to the findings identified in our audit are presented on pages 19 through 21. We did not audit the County's responses, and accordingly, we express no opinion on them.

This report is intended solely for the information and use of the members of the Arizona State Legislature, the Board of Supervisors, management, others within the County, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record, and its distribution is not limited.

Pima County  
Notes to Schedule of Expenditures of Federal Awards  
Year Ended June 30, 2012

Note 1 - Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of Pima County and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

Note 2 - Catalog of Federal Domestic Assistance (CFDA) Number

The program titles and CFDA numbers were obtained from the federal or pass-through grantor or the 2012 Catalog of Federal Domestic Assistance. When no CFDA number had been assigned to a program, the two-digit federal agency identifier, a period, and the federal contract number were used. When there was no federal contract number, the two-digit federal agency identifier, a period, and the word "unknown" were used.

Note 3 - Subrecipients

From the federal expenditures presented in the schedule, the County awarded the following to subrecipients:

Program or Cluster Title	CFDA Number	Amount

## Financial Statement Findings

Financial statement findings were reported in the separately issued Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Basic Financial Statements Performed in Accordance with *Government Auditing Standards*.

## Federal Award Findings and Questioned Costs

12-101

CFDA No.: Not Applicable

Questioned Cost: None

Criteria: OMB Circular A-133, §.300, requires the County to identify, in its accounts, all federal awards received and expended and the federal programs under which they were received, and prepare appropriate financial statements, including a Schedule of Expenditures of Federal Awards (SEFA). OMB Circular A-133, §.310(b), requires the SEFA to include the Catalog of Federal Domestic Assistance title and number, amount expended, name of the federal awarding agency, and if applicable, name and identifying number of the pass-through grantor for each of the County's federal awards.

Condition and context: The County did not properly prepare an accurate and complete SEFA. Specifically, auditors noted the following errors:

- Federal award expenditures for the Public Safety Interoperable Communications program were overstated by \$3,323,658, as these expenditures were already reported in fiscal year 2011.
- Federal award expenditures for the WIA Cluster Youth Activities program were overstated by \$1,972,400.
- Federal award expenditures for Payments in Lieu of Taxes were not reported originally on the SEFA; therefore, expenditures were understated by \$2,958,214.
- Federal award expenditures for the JAG Cluster program were understated by \$401,629.
- Federal award expenditures for the WIA Cluster Dislocated Worker Formula Grants program were understated by \$1,372,677.
- Federal award expenditures for the Highway Planning and Construction program were understated by \$152,520.
- Federal award expenditures for the ARRA—Prevention and Wellness—Communities Putting Prevention to Work Funding Opportunities Announcement (FOA) program were understated by \$2,208,209.
- Federal award expenditures for the Homeland Security program were understated by \$343,174.
- The County incorrectly reported other required information for ten of its federal programs.

Effect: When submitted for audit, the County's SEFA was materially misstated. The County adjusted its SEFA for these errors.

Pima County  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2012

Cause: This is the first year the County prepared the SEFA using their new Advantage Management System (AMS). The County utilized an inappropriate report from the AMS system as a basis for SEFA preparation.

Recommendation: The County should ensure that the SEFA is accurate and complete. The County should establish policies and procedures for preparing the SEFA using the County's AMS system. These procedures should include collecting accurate and complete federal program identifying and expenditure information to use during SEFA preparation and requiring a thorough review of the data and schedule.

CFDA No.: 14.256 **ARRA—Neighborhood Stabilization Program (Recovery Act Funded)**

**U.S. Department of Housing and Urban Development**

Award Year: February 11, 2009 through February 11, 2013

Award Number: B-09-CN-AZ-0051

Reporting

Questioned Cost: None

Criteria: According to the grant agreement and the Notice of Fund Availability for the Neighborhood Stabilization Program 2, the County is required to prepare and submit quarterly progress reports, which should be supported by the County's financial records and supporting schedules.

Condition and context: Auditors tested two of the required four quarterly progress reports and noted that the County incorrectly reported the total expended for one of the tested progress reports. Auditors determined the amount reported was understated by \$2,161,105. Additionally, the County failed to provide evidence that the financial information on the reports was appropriately reviewed and approved prior to submission.

Effect: The County submitted inaccurate reports to the federal awarding agency.

Cause: The County did not have adequate policies and procedures to require an independent review and approval of reports to ensure that it accurately entered financial data into the required, electronically submitted, quarterly progress reports.

Recommendation: To help ensure that the County accurately prepares the quarterly progress reports, it should implement policies and procedures requiring that progress reports be based on and reconciled to the County's underlying financial records and requiring an independent review of all information included on each progress report before electronically submitting the reports.

CFDA No.: 81.128 **ARRA—Energy Efficiency and Conservation Block Grant Program**  
**U.S. Department of Energy**

Award Year: August 17, 2009 through February 16, 2013

Award Number: DE-EE0000852/002

Reporting

Questioned Cost: None

Criteria: According to the grant agreement for the Energy Efficiency and Conservation Block Grant Program (EECBG), the County is required to prepare and submit quarterly progress, financial, and ARRA performance reports that should be supported by the County's financial records and supporting schedules.

Condition and context: For two of four progress reports, the amounts reported could not be traced to the County's accounting records or supporting schedules. For three of four financial status reports, the amounts reported could not be traced to the County's accounting records or supporting schedules. For two of four ARRA Performance Progress reports, some amounts reported could not be traced to the County's accounting records or supporting schedules.

Effect: Amounts reported on the tested EECBG reports were not supported by the County's accounting records or supporting schedules.

Cause: Auditors determined that an inexperienced county employee prepared and submitted progress, financial, and ARRA performance reports without having them approved by a grant official as required by county policies and procedures. When county management identified the errors they performed a comprehensive review and correctly reported the applicable information on the 6/30/12 progress, financial, and ARRA performance reports.

Recommendation: The County should ensure amounts reported in all the progress, financial, and ARRA performance reports are accurate by enforcing existing policies and procedures requiring an independent review of all information included on each report before electronically submitting the reports.

CFDA No.: 16.804 **ARRA—Recovery Act—Edward Byrne Memorial Justice Assistance Grant (JAG)**  
**Program/Grants to Units of Local Government**

**U.S. Department of Justice**

Passed through the City of Tucson

Award Year: March 1, 2009 through February 28, 2013

Award Number: 16636

Period of Availability

Questioned Cost: \$36,494

Criteria: According to the County's grant agreement for the Edward Byrne Memorial Justice Assistance Grant, all funds are to be used for allowable expenditures during the period of availability.

Pima County  
Schedule of Findings and Questioned Costs  
Year Ended June 30, 2012

Condition and context: The County requested and received reimbursement in the amount of \$36,494 for a multi-year service agreement that extended beyond the period of availability.

Effect: The County incorrectly requested and received reimbursement for services that were outside the period of availability under the grant agreement.

Cause: According to county grant officials, when the County requested reimbursement for the multi-year service agreement, the County believed the multi-year service agreement was an allowable capital expenditure. However, the federal grantor agreed with the auditors that the County was not allowed to spend grant money on the portion of the multi-year service agreement that was outside of the period of availability. Because of this, the County adjusted their records to reverse the initial expenditure for the multi-year service agreement and instead applied the federal monies to certain program-related capital equipment purchases. This capital equipment had originally been purchased with nonfederal monies during the period of availability, and its cost met or exceeded the amount of the questioned cost.

Recommendation: The County should establish policies and procedures that help ensure grant expenditures are made within the program's period of availability.
