Subject: Pima County Floodplain and Erosion Hazard Management Ordinance Revisions

Dear (see attached list):

The Pima County Regional Flood Control District (District) will request that the Board of Supervisors hold a public hearing on May 4, 2010 to formally adopt revisions to the Pima County Floodplain and Erosion Hazard Management Ordinance (Ordinance). Similar to past requests, the District would appreciate your assistance in distributing this information to your members via email and/or your website.

Enclosed is information briefly describing some of the more substantive revisions being proposed. To view the revisions in their entirety, please visit our website at: www.rfcd.pima.gov.

Your timely feedback is important so that we may consider incorporating your ideas and suggestions into the revisions. As such, we ask that you contact Eric Shepp, Floodplain Management Division Manager, at 243-1800 in order to arrange a meeting to review and discuss the proposed Ordinance revisions.

In addition, in order to facilitate input, the District will be conducting a series of "open house" style meetings at our office. Even though each open house will focus on a different substantive revision, input on any proposed changes is encouraged. The schedule for the Ordinance revisions process, including the open houses is enclosed.

The District appreciates any constructive feedback which will help make the Ordinance cleaner, clearer, and more effective. We look forward to meeting with you soon.

Sincerely,

Suzanne Shields, P.E.
Director and Chief Engineer
