FILL IT FORWARD

Custom Programming

How it works

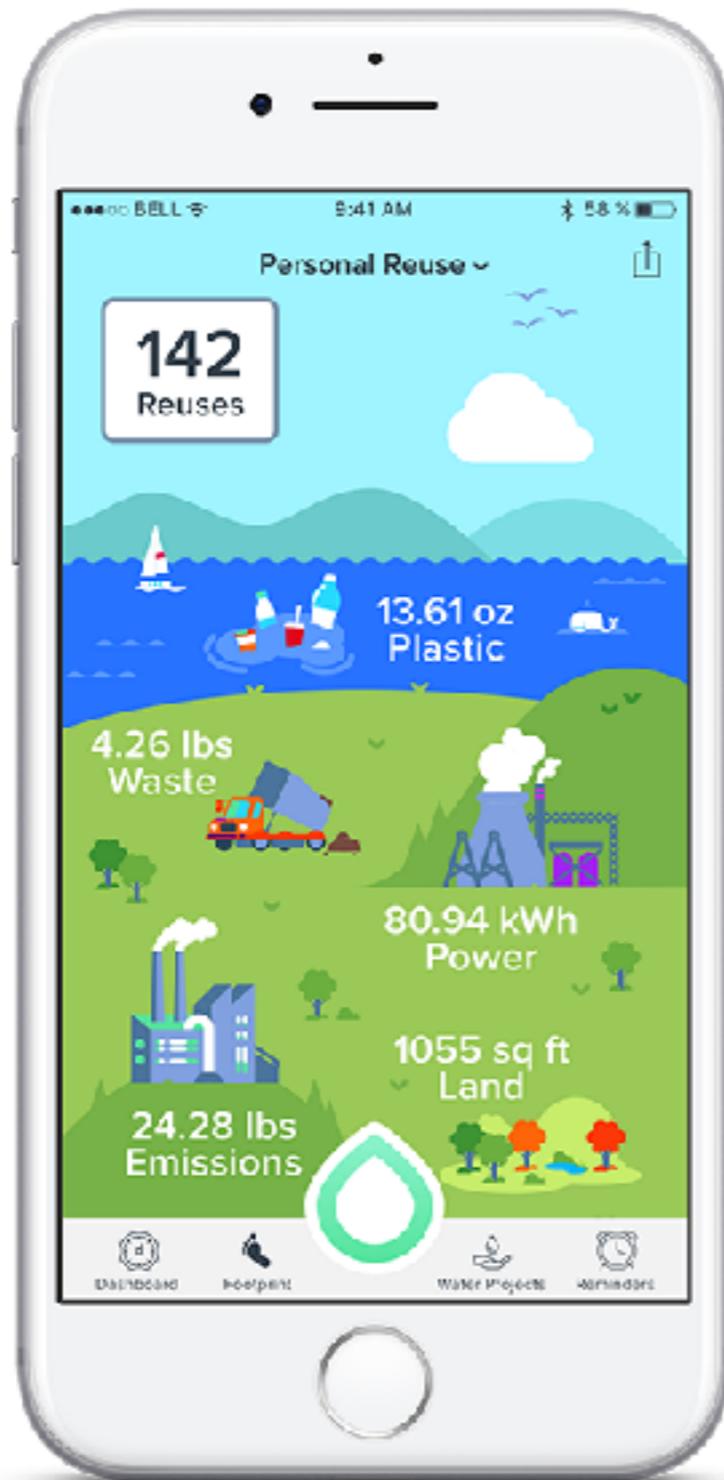

Watch our launch video on YouTube  **YouTube**

Every bottle ships with the Fill it Forward tag & app experience

Download the app for free

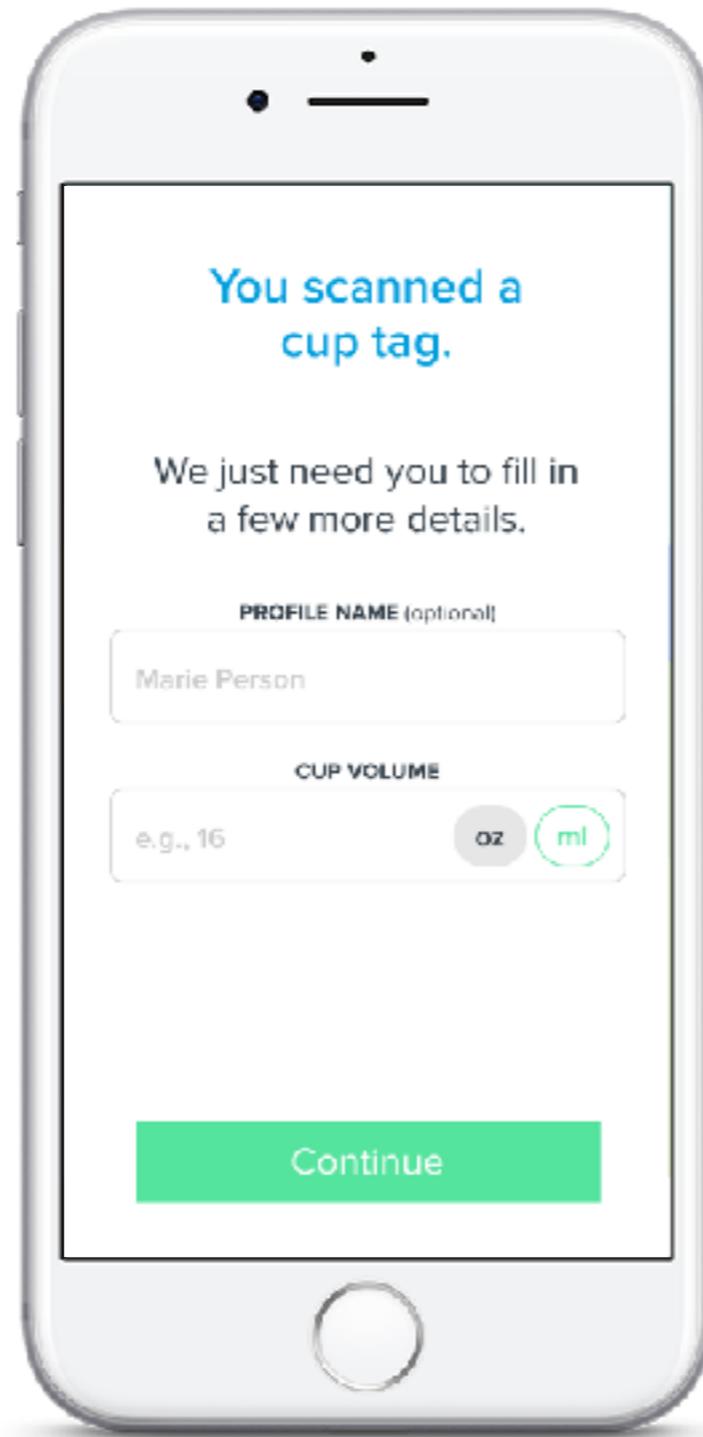

Track your environmental footprint.

You can access your footprint from either the dashboard or the footprint tab at the bottom of the screen.

To view your organization's footprint tap the arrow beside "Personal Reuse".

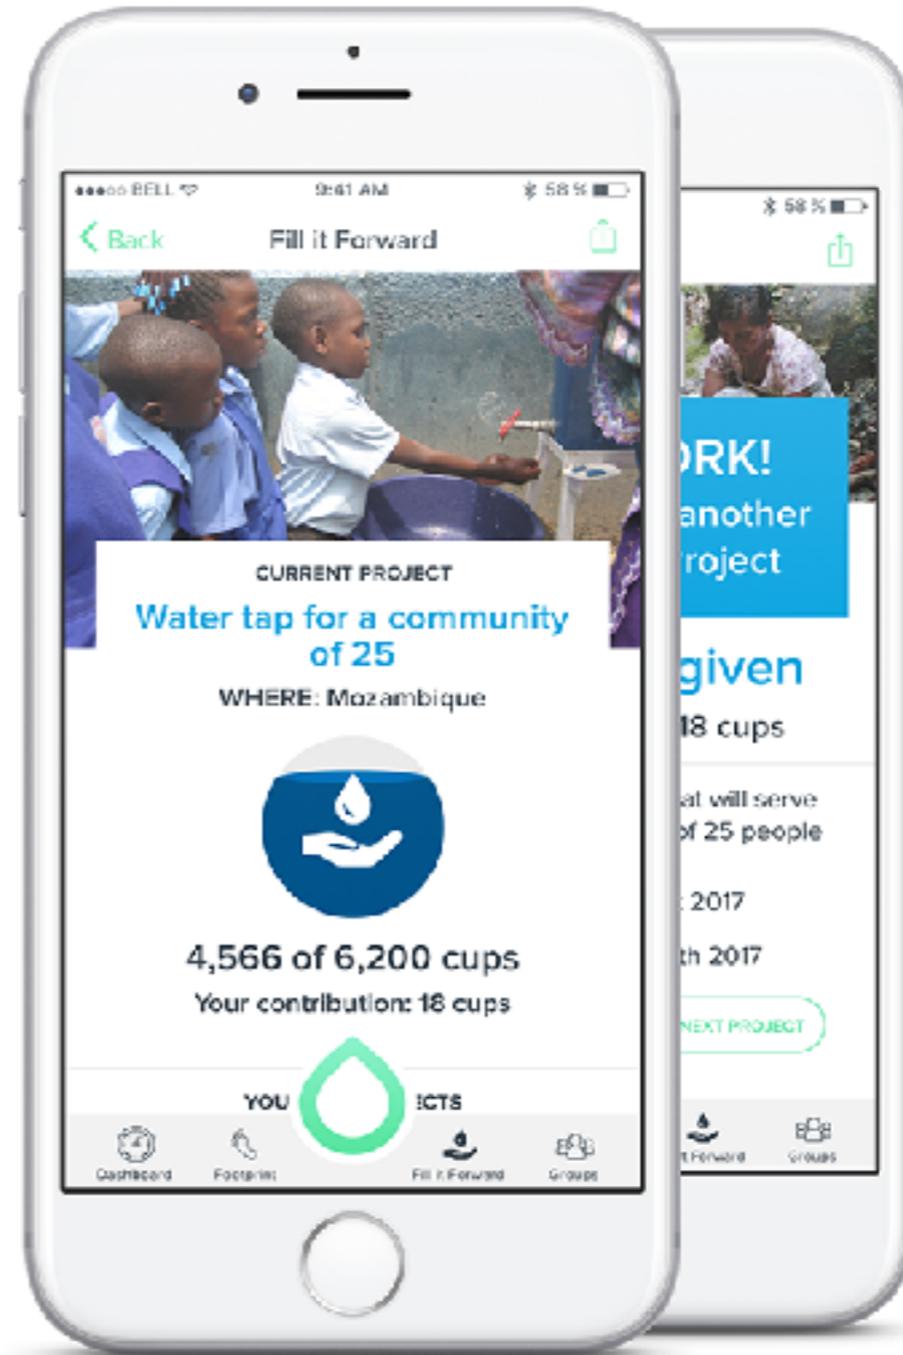

And stay hydrated.

You can track your hydration by adding a “reusable profile” to your account. To add your reusable to your account follow these steps:

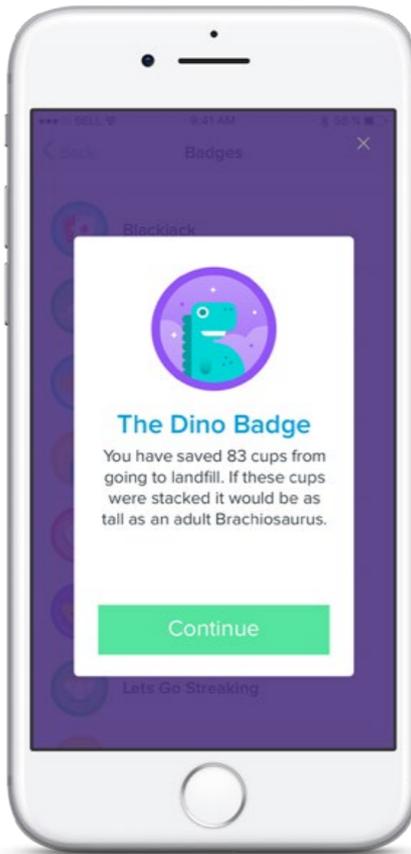

1. From the dashboard tap “Settings” which is in the top left hand corner
2. From Settings tap “Profile” then tap “Add Reusable”
3. Scan your tag
4. Add reusable details to start tracking your hydration with every scan.

Use the Fill it Forward app to give clean water every time you refill.

You can access the Water Projects from either the dashboard or the water projects tab at the bottom of the screen.

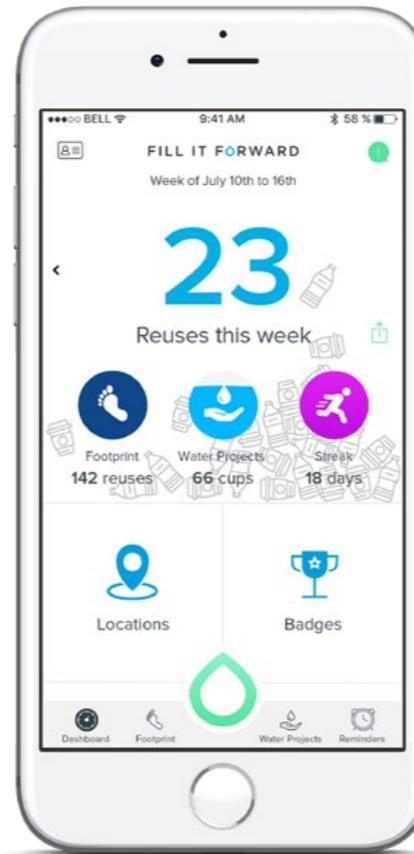

Additional App Features

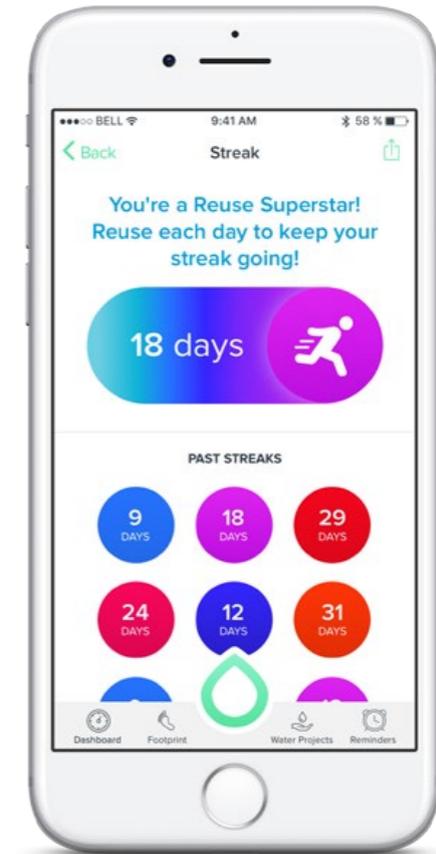

EARN BADGES

We think you deserve some recognition for being a reuse rockstar! Earn badges like the Seal of Approval or the Touchdown when you hit reuse milestones.

SEE YOUR IMPACT

Each time you reuse you are saving a single use paper cup or plastic water bottle from ending up in landfill or recycling. We make it easy to see and share your impact.

START A STREAK

You're a reuse superstar! Start a streak by reusing 3 days in a row. How long can you reuse for?

Every time you refill, Cupanion gives clean water to a person in need. Fill it Forward.™

Our Giving Partners

Together with our giving partners we have given over 3,000,000 cups of clean water and have helped complete 61 water projects globally.
