

AKKA Karate USA-Thornycdale

Honesty in the heart Knowledge in the Mind Strength in the Body

Martial Arts and Fitness

Kids Classes are high energy, fun, educational and age appropriate. These classes excite all those who take part in them!

Classes help develop Confidence and Focus while Values and Ethics are discussed and trained to develop character!

We incorporate the STAR Program, which is designed to help instill traditional values and ethics taught in our program and we reward students for Academic Achievement!

Adult and Teen Classes are for those looking for:

- Usable Self Defense
- Confidence
- Fitness and Flexibility
- Stress Relief
- Patience

Combining mind, body and spirit, this class is for any teen or adult who has an interest in developing these things and more. We combine a physical workout and learning designed to challenge the student in a way that not only helps them defend themselves not only from people trying to hurt them, but from the mindsets that can hinder us from reaching our personal best.

Our MAT-Fit Fitness Kickboxing uses training methods from Kickboxing and Martial Arts-we workout the whole body!

Whether it's at home or in the work force, the health, confidence and fitness benefits from this class will carry over into all areas of your life!
