

Seminar Purpose

Provide a forum where attendees can receive pertinent hazardous materials information, compliance up-dates; learn best practices, information on planning, safety information and an opportunity to ask questions.

Provide an environment with information to help businesses to create and maintain a safe environment for workers, operations, and their community.

Provide an opportunity for the business community to build relationships with other businesses in the area and learn from their best practices.

Who should attend?

The anticipated/designated audience for this seminar:

- o **Industry and business owners, operators and/or managers;**
- o **Industrial, business and government compliance personnel;**
- o **Industrial, business and governmental personnel responsible for hazardous materials safety;**
- o **Fire department personnel with hazardous materials compliance responsibilities.**

What is the cost to attend this seminar?

The cost for people to attend this seminar is **FREE**. Most all costs associated with this seminar are covered through a grant from the U.S. Department of Transportation Pipeline and Hazardous Materials Safety Administration.

This grant assists communities to help prepare for hazardous materials release and community planning for safety.
