## U.S. Department of Transportation Pipeline and Hazardous Materials Safety Administration (PHMSA) Training Information

Search the web: [www.phmsa.dot.gov/hazmat/gov](http://www.phmsa.dot.gov/hazmat/gov)

There are three columns on this page...go to the center column (**Grant Application and Management**);

All items in this column pertain to the HMEP Grant and are accessible without a log-in (lots of good information in this column);

NOTE: everything on this page has some relationship to the HMEP Grant...all accessible without a log-in and password. Many of the items pertain to the grantee and not the sub-grantee (us);

Click on: U.S. DOT PHMSA Grant Program Education and Outreach Materials;

In the lower right hand corner, Click on NEW USER (you only have to register once);

Complete the application and click on submit/save. Each person registering will receive their individual log-in and password – **REMEMBER THIS INFORMATION;**

You will then be directed to the Training Program...follow the directions and complete the program. There are two sections of the training program. You can take one section and go back to complete the second, if need be. Otherwise, when you complete both sections successfully, you will be given the opportunity to download and/or print your certificate. NOTE: There may come a time when PHMSA will require Sub-Grantees (us) to submit copies of this certificate when we submit reports.

This training is required for all Grantees...sub-grantees should know the HMEP Grant process.
