

## COCHISE TRAIL PLANNING

The first part of the Cochise Trail, which goes from the Arizona Trail in the Cienega Creek Natural Preserve, through McKenzie Ranch, and then down to I-10 at the Empirita Exit, is planned, and ready for the piece that will go from I-10 to the Whetstone Mountains. Here is a GPS map that was done by trails expert Mark Flint of the first part, which is over 31 miles in length! Next year, the rest.
