Kolb Road: Sabino Canyon to Sunrise Drive - Public Open House Meeting  
Tuesday, December 12, 2017

Paul reviewed the topics to be discussed for the meeting, with the purpose to provide an the public with a general update of the project: including location, overall scope, typical roadway cross sections, configuration of the Territory and Kolb Road intersection (including review of crash data), project schedule, the location of project documents (County website), and answer general questions prior to transitioning to an Open House format where the public could review project plans and ask more specific questions of the various project team members in attendance. Alejandro Angel with PSOMAS reviewed the concerns and crash history of the corridor and the issues associated with the commercial area at the north end of the project. Robin Riley, the project artist provided some concept ideas to the community and asked for comments.

General questions that were raised beyond the information presented included the status of noise walls for the project, which was reviewed and communicated that they were not warranted to be installed (not sufficient traffic flow to trigger barrier walls), and a question regarding the traffic flow thru the commercial shopping area, which will be impacted by the roundabout installation at Territory and Kolb Road (which was driven by the crash history along Kolb Road between Territory and Sunrise Drive).
