

**La Cañada Drive:**  
**River Road to Ina Road (4LCRRI – south)**  
**Ina Road to Calle Concordia (4RTCCI – north)**  
**Workshop Information and Orientation**

**Welcome!**

- Welcome to tonight’s workshop for the La Cañada Drive, River Road to Ina Road and Ina Road to Calle Concordia projects.

**Workshop Purpose**

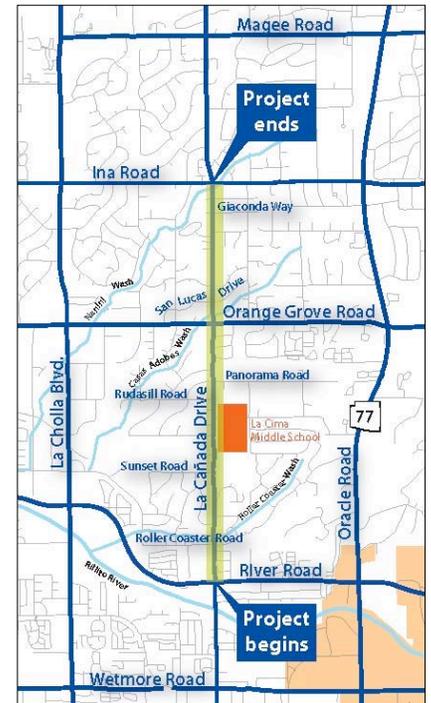

- To provide residents with information about noise walls, barrier walls, retaining walls, screening, landscaping, property access, and other mitigation methods.
- To answer questions and receive comments from residents and property owners regarding specific property concerns.

**Format**

- Tonight’s workshop will follow an open house format with no formal presentation. Maps, displays and other informational materials are available for your review and comment.
- Project representatives are available to discuss individual concerns and address questions for both projects.

**Your Comments are Important**

- Your comments are important to Pima County and we appreciate your time participating in the projects’ public involvement process.

*La Cañada Drive:  
River Road to Ina Road*

*La Cañada Drive:  
Ina Road to Calle Concordia*

- When commenting on mitigation methods or concerns for a specific property, please let us know if you are the owner of that property.
- Knowing the needs behind a request is often more helpful in finding a way to better meet needs than the request itself. So please help us understand the concern and do not feel you have to spell out a specific request or solution.

**There are Many Ways to Provide Comments**

- Fill out the comment form provided at tonight’s workshop; please be sure to include your address, especially if you are an owner of a property directly on La Cañada Drive.
- Add project-specific information to the aerial photos on display and on tables around the room. If you are the property owner for the area you are commenting on, please include that information.
- Add comments to the pads of paper on easels around the room.
- Talk to one of the project representatives, but please also provide something in writing so that your concerns can be recorded and shared in your own words.

**It is Easy to Find and Receive More Information**

- Visit [www.roadprojects.pima.gov](http://www.roadprojects.pima.gov) for more information about these projects.
- Make sure to provide complete contact and mailing information on the workshop sign-in sheet or comment form so we can send you information about future meetings.
- Attend project open houses scheduled for later this summer and fall.
- Talk with members of the Community Advisory Committee, some of whom may be at this evening’s workshop.
