The presentation will provide a brief update of the project status. The Pima County Department of Transportation (PCDOT) and the Regional Transportation Authority (RTA) are finalizing plans and environmental clearance documents to improve La Cañada Drive from River Road to Ina Road. The plans include: widening La Cañada Drive to four lanes, to improve vehicular, pedestrian, bicyclist and equestrian safety; and to provide a key north-south, all-weather surface for residents, commuters and emergency service providers. Construction is scheduled to begin in 2011. Representatives from Pima County and the project team will be available to answer questions and address potential concerns about the project. Maps and project information will be on display, and comment forms will be available.
