

Summerhaven Congestion Management Concepts Study

Public Meeting No. 1

August 16, 2018

Agenda

1. Introductions
2. Study Purpose and Goals
3. Work Plan Overview
4. Discussion of Issues
5. Next Steps

Study Purpose and Goals

- Need for the Study
 - Summerhaven is a popular destination for residents and tourists in Pima County
 - Town center and adjacent street system experience congestion, affecting all modes
 - Traffic Action Requests are regularly received concerning congestion and parking issues

Study Purpose and Goals

- Study Goals
 - Engage stakeholders to identify issues and possible solutions
 - Identify congestion relief concepts to mitigate multi-modal congestion; concepts may include:
 - Parking concepts
 - Improvements to the roadway system
 - Transit/shuttle
 - Trailhead enhancements
 - Technology solutions
 - Others

Work Plan Overview

- Project Tasks
 - Data Gathering
 - Gather existing information from Pima County
 - Initial stakeholder meetings
 - Site visits
 - First of two public open houses
 - Current Network Assessment
 - Crash data analysis
 - Traffic data analysis
 - Needs assessment memorandum
 - Needs assessment and improvement brainstorming session

Work Plan Overview (cont.)

- Project Tasks
 - Recommendations
 - Draft recommendations development
 - Follow-up stakeholder meetings
 - Second of two public open houses
 - Refined recommendations
 - Cost estimates and prioritization of improvements
 - Final recommendations

Project Schedule

- ≈6 month timeline
- Meeting dates are approximate

Task	Aug.	Sep.	Oct.	Nov.	Dec.	Jan.
Data Gathering	  					
Network Assessment						
Recommendations						  

-  Site Visits
-  Stakeholder Meetings
-  Public Open House

-  Draft Plan
-  Final Plan

Discussion of Issues

- What are the issues related to congestion in the study area?
 - Parking
 - Multimodal mobility
 - Bicycles
 - Pedestrians
 - Congestion and Traffic Circulation
 - Other

Parking

(30 minutes)

- What are the issues related to parking?
 - Limited parking
 - Location of available parking
 - Safety
- How often do the issues occur?
 - Seasonal / weekend / snow play
- What are potential solutions to parking issues?

Multimodal mobility and safety

(15 minutes)

- What are the issues related to walking and bicycling?
- How often do the issues occur?
 - Seasonal / weekend / snow play
- What are potential solutions to improve walking and bicycling?

Congestion and Traffic Circulation

(15 minutes)

- What are the issues related to congestion and circulation?
- How often do the issues occur?
- What are potential solutions to reduce congestion and improve circulation?

Additional Discussion

(15 minutes)

- Transit
 - Shuttle
 - Transit circulator
- Technology
 - Travel information
- Other

Next Steps

- Summarize input from stakeholders and public meeting
- Data Gathering
 - Site visit
 - Mapping and research
- Needs memorandum
- Draft Recommendations
- Agency Stakeholder Meeting No. 2
- Public Meeting No. 2
- Final Recommendations
