

CITY OF TUCSON ENVIRONMENTAL SERVICES

Help Others & Save \$

Purchase Recycled Paint

Each year the City of Tucson collects more than 25,000 gallons of paint at Household Hazardous Waste sites or events. This paint goes to the Beacon Group, a local nonprofit that provides employment opportunities to people with disabilities. **The Beacon team sorts, cleans, mixes and repackages colored latex paint into new 5-gallon buckets that are for sale at a discount at:**

- EcoPaint – Recycled Latex Paint for interior & exterior use
- Gerson's Used Building Materials
- 4726 S. County Club Blvd.
- gersonsbuiltmaterials.com

By purchasing quality recycled paint, you'll save money, provide meaningful employment, and keep paint out of landfills and the environment.

PIMA COUNTY WASTEWATER RECLAMATION

Sanitary Sewer Overflows are on the Decline

A Sanitary Sewer Overflow (SSO) is the backup of raw sewage into homes, streets, and the environment.

The Conveyance Division's Preventative Maintenance Program routinely cleans all sewer lines, while the Scheduled Maintenance Program responds to problem areas identified through remote-control inspection devices in sewer lines.

These efforts, in conjunction with your diligence in keeping cooking oils and grease out of drains, have resulted in a record low occurrence of SSOs in Pima County. Thank you!

Call (520) 724-6500 to report a SSO.
