## Love the Planet this February

February is the perfect time to show love for our environment. Here are three simple ways to tend and care for our planet:

- **Reduce:** Think about whether an item is an essential purchase or if it is something that can be rented or borrowed. Consider an item's packaging and choose products with minimal packaging or packaging that is 100% recyclable.
- **Reuse:** Before you toss something in the trash, consider whether you or another person can reuse it. If an item is in good condition, donate it to local thrift shops or charities. Avoid buying single use products.

- **Recycle:** Use your blue barrel. Make sure to recycle cardboard, paper, metal cans, and plastic bottles and jugs. These items have more life in them so recycle!

If you'd like to learn more about how Tucson cares for the environment, take a tour of the landfill and recycling facility. We'll share more info about the tour schedule on Facebook at **Do More Blue Tucson**.
