# please Bag & Tie Your Trash

Bag and tie your trash to keep waste out of our streets, washes, and open spaces. Windblown litter can cause accidents, doesn't degrade, and is expensive to clean up. Bagging and tying also helps control odors that attract flies and other pests.

Don't want to purchase trash bags? Reuse plastic shopping bags for trash.

*Remember: Never use bags for Blue Barrel recycling and only recycle items that are empty, clean and dry.*

# Protect Our Pipes!

Drop Your Grease at our Year-Round Collection Site.

Pouring fats, oils, and grease (FOG) down your drain over time can clog sewer lines and can result in sewer backups and overflows onto the streets, businesses, and even customer's homes.

Please save your FOG and bring it to our year-round collection site.

Help us to protect our pipes! Thank you!
