**Say NO! to PLASTIC BAGS & PLASTIC WRAP**

Never put any type of film plastic -- in any form -- plastic bags, plastic wrap, bread bags, or flexible film plastic in a blue recycling bin. Plus, please don’t put recyclables in a plastic trash bag.

If these types of plastics end up in a Blue Barrel, then your bin’s contents cause contamination and become dangerous at the recycling facility! The material wraps around and clogs expensive facility equipment. Processing stops and workers must cut away the plastic from machinery.

Go to tucsonaz.gov/recycle for tips on How to Recycle Right.

**What can I do?**

Unfortunately, it is not a game. Clogged pipes can cause sanitary sewer overflows, which are costly in repairs to our sanitary sewer system, can harm the environment, and pose a health risk. **YOU can help prevent them by tossing wipes into a trash can. Thank you!**
