### Invitation to Participate on the Pima County RWRD Standards Committee

TO: Potential Committee Members  
FROM: Carol A. Johnson, P.E., Sanitary Engineering Manager – Committee Chair  
SUBJECT: Design Standards Committee

---

Pima County RWRD adopted new Engineering Design and Construction Standards in 2012. One aspect of these standards was the creation of a Design Standards Committee. The committee will be comprised of the following positions: RWRD Sanitary Engineering Manager, RWRD Field Engineering member, RWRD Conveyance Division member, and **two stakeholders of the private development construction and engineering profession**, and one non-voting member from the RWRD Development Liaison Unit.

The purpose of this committee is to review and address the following types of business:

- Denied Variance requests;
- Denied public sewer construction permits; and
- Other issues escalated during the design-review process
- Annual update to the Design and Construction Standards.

The committee will meet monthly on the 3<sup>rd</sup> Wednesday at 2 PM, but **may meet as often as two times per month**. The members will need to prepare for each meeting by reading staff reports of upcoming requests and issues and generally familiarizing themselves with the matters to be discussed.

If you have experience in the construction or engineering profession and are interested in serving on this committee, please fill out the attached application and submit it **before February 21, 2014** with your resume and/or applicable experience.

More information about the Standards Committee may be found in the RWRD Engineering Design Standards, Section 2.4., and on the website at: <http://webcms.pima.gov/government/wastewaterreclamation/designstandards/>

Thank you in advance for considering working with us on this important effort. If you have any questions please feel free to contact me at (520) 724-6334.
